RTP 004 S MS

Product no.: T0050102399

Benefits

- Short tip-to-grip distance Close working distance to the component for higher precision and maximum control
- MIL-SPC / IPC standard (potential free) Reduces risk of damage to sensitive micro components and workpieces. No rework, lower total cost of ownership
- Active tip technology Fastest heat-up and recovery time, sensor close to the solder tip, excellent heat transfer. No downtime, continuing workflow, excellent results
- Digital tool for data storage Motion activated usage sensor for energy control and data storage
- Patented tip & grip design Only soldering tip on the market which can be changed without a tool. 20% faster change than leading competitors.
