Cable Splicer's Kit with Free-Fall Snip

This must-have kit for low-voltage installers features the basic tools needed for running coax and twisted-pair cable. The Free-Fall Snip (2101-0) cuts 19 AWG and 23 AWG electrical communication wire. The 1-3/4-Inch blade on the Cable Splicer Knife (44200) is made of steel for durability with a comfortable handle for frequent use. The kit comes with a slotted leather holder (5187) that fits belts up to 2-Inch (51 mm) wide.
