RTPS Pico Soldering tip, knife 1.0 mm, MIL-SPEC, not wettable

Item No: T0050111899

KEY FEATURES

- For all Pico Applications with smallest Component Sizes:
  Smart high-performance tips for the smallest component work under the microscope: 0402 to 01005 (XS to S)
- Extremely Fast 3-Second Heat-up Time for Smallest Applications
- Maximum Precision:
  Short tip-to-grip distance and optimized tip shape provide maximum precision during the soldering process.
- Clear Identification of Smart Tips
- Full Process Control with Tip Lock Function
- Full Traceability with Tip ID Number and Integrated Data Storage
- Accurate Data Results with Tip-Offset Function
- Fast, Safe and Easy Tip Exchange
- Maximum Protection:
  (IPC industry standards - TM-650 2.5.33)
- Tool Compatibility:
  For use with WXMPS MS smart soldering iron and WXsmart soldering station

TECHNICAL DATA

Mil-Spec	Yes
Tip Range	Smart RT Pico
Tip Shape	Knife
Tip Type	MS
Tip Width	1.0 mm
UPC	037103369383
