

SD 1000 Solder Dispenser

Item No: T0051301799N
Solder dispenser

The Weller SD 1000 solder wire dispenser is the optimum addition to the soldering work station. It offers perfect stability thanks to the heavy base plate.
The SD 1000 was designed so that various solder wire reels up to 1 kg can be used. The solder wire guide is suitable for different wire diameters and enables the solder wire to be fed quickly into the desired position. To use an additional solder wire reel, the optional ABW 2 attachment bracket can be easily fitted. This keeps your work space clear and helps maintain an organized soldering work station with different wire diameters to hand. Solder wire is not included in the delivery.

KEY FEATURES

- Increased work efficiency:
  Fast solder wire feed (solder wire unwinds smoothly)
- High Stability:
  Exceptional stability thanks to high-quality metal base plate
- Space Saving:
  Optional attachment kit can be fitted (ABW 2) – for flexibility with choice of solder wire and saving space by stacking
- ESD-safe
- Possibility of potential equalization
- Suitable for solder wire reels up to 1kg
- Adjustable roller mount:
  1. Length 70 mm, internal diameter 12 mm
  2. Length 84 mm, internal diameter 12 mm
  3. Length 95 mm, internal diameter 15 mm
