

3500 Series - LightSpace™ Fiber Optic NID

3500 Series - LightSpace Fiber Optic NID

APPLICATION

Leviton's 3500 Series LightSpace Fiber Optic NID (Network Interface Device) is a low profile, full-featured NID combined with the splicing and connectivity of fiber optics. It is constructed of materials capable of withstanding harsh indoor and outdoor conditions, such as UV degradation, chemical exposure, and sub-freezing temperatures. This double door unit is designed for wall mounting, and will accommodate up to 12 fiber terminations, with or without splicing.

FEATURES

Base:

- Compact molded splice tray which includes 40mm fusion splice sleeves
- Capable of withstanding harsh indoor and outdoor conditions.
- Accommodates one 12-fiber splice tray and one adapter plate.
- Flexible grommets provide sealing for cable entry ports.
- Factory pre-stubbed units available.

Cover Door:

- Double door unit features a separate and lockable cover.
- Secure fit provides maximum protection from the elements and foreign matter intrusion.
- Top hinged to allow convenient access to all components.
- Unique detent/release mechanism provides easy installation and servicing, holding the door open for service or maintenance.
- Includes provisions for padlock (padlock not included).

STANDARDS COMPLIANCE

Listed to UL 497.

PHYSICAL SPECIFICATIONS

Dimensions: 8.54" x 10" x 2.88"
Weight: 1.7 lbs
Materials: Thermoplastic Composite
