

**TECHNICAL SPECIFICATION:** Oatey Adjustable Bath Tub Protector is designed to protect tub against damage from debris during construction or remodeling process. Adjustable Bath Tub Protector is made of a semi-flexible high-impact plastic and is designed with padded bottom to absorb shock and prevent scratch or dent damage to tub finish. Adjustable feature allows tub protectors to be shipped in nested, collapsed position for reduced storage space, and expand to fit standard tub styles from 14" to 16" depth.

#### **PHYSICAL/CHEMICAL PROPERTIES**

Material	High Impact Plastic
Collapsed Dimensions	4-1/4" deep x 60" long x 44" wide
Maximum Dimensions	16" deep x 60" long x 44" wide

#### **DIRECTIONS FOR USE**

After tub is installed in new construction, carefully insert Bath Tub Protector inside of tub and gently push to expand material to desired depth.

#### **COMMON APPLICATIONS**

Oatey Bath Tub Protector is designed to protect against tub damage during home construction.

Consult Oatey Technical Department for applications not specifically referenced above.

#### **COLLAPSED VIEW**

- Made of extra heavy gauge, High Impact Plastic.
- Shock absorbent design bottom grips tub surface to protect finish from abrasive action resulting from movement.
- Easy assembly - drop into tub and expand to desired depth
- Fit both left and right hand drain tubs
