Extinguishing Media: Dry chemical. Foam. Carbon dioxide

### Special Firefighting Procedures:

Handle as flammable liquid. Wear self-contained breathing apparatus & chemical goggles. Water may be ineffective, but should be used to keep fire-exposed containers cool.

### Unusual Fire And Explosion Hazards:

Vapor is heavier than air and travels considerable distance to source of ignition and flashback. On long standing may form peroxides which may cause violent reaction especially upon evaporation to dryness. *Continued on Next Page*

### Section 5 - Reactivity Data

Stability: Stable	Conditions To Avoid:	Keep in closed containers away from sparks and open flame.
Incompatability (Materials To Avoid):	Strong oxidizing materia and Potassium Hydroxic	ls, Lithium Aluminum Hydride, Sodium Aluminum Hydroxide, Sodium les.
Hazardous Decomposit	ion: CO2 and CO are	formed. Irritating peroxide fumes form when heated to decomposition.
Hazardous Polymerizati	on: Avoid excessive	exposure to air and cationic initiators like Lewis Acids.

### Section 6 - Health Hazard Data

Routes of Entry: Inhalation Yes/Primary Skin Yes/Primary Ingestion Yes/Secondary

### Health Hazards:

Corrosive to eyes and skin irritant. Severe overexposure can cause headache, dizziness and narcosis. May cause dermatosis with prolonged repeated contact.

Carcinogenicity: NTP NO IARC NO OSHA Regulated NO

### Signs And Symptoms of Exposure:

INGESTION: No effects of exposure expected. INHALATION: Will cause irritation of mucous membranes, nose, eyes & throat, coughing, difficulty of breathing. Exposure to high vapor concentration may cause headache, dizziness, nausea, narcosis. SKIN CONTACT: Prolonged contact causes common solvent defatting effect. EYE CONTACT: Vapors slightly uncomfortable, splashes irritating. Will cause painful burning or stinging of eyes and lids, watering of eyes and inflammation of conjunctiva.

### Medical Conditions Generally Aggravated By Exposure:

### **Emergency And First Aid Procedures:**

INGESTION: Do not induce vomiting. If conscious, dilute by giving 2 glasses of water. Call a physician immediately. INHALATION: Remove to fresh air. If not breathing give artificial respiration preferably mouth-to-mouth. If breathing is difficult, give oxygen. Call a physician. SKIN CONTACT: Wash affected areas with soapy water. Remove contaminated clothing. EYE CONTACT: Immediately flush eyes with plenty of water for 15 minutes. Consult a physician.

# Section 7 - Precautions For Safe Handling And Use: Steps To Be Taken In Case Material Is Released Or Spilled: Eliminate sources of ignition. Absorb with sand or inert absorbing material and dispose of with solid waste according to Federal, State and local regulations. Flush spill area with water, avoid flushing into confined areas. Waste Disposal Method: Incinerate in accordance with Federal, State and local regulations. Precautions To Be Taken In Handling And Storing: Store in cool place, well-ventilated area. Keep away from open flame and sources of ignition. Other Precautions: Use normal good personal hygiene. Section 8 - Control Measures: Respiratory Protection: In case or other circumstance or other circumstance or where adequate userilation append to a prove the append to a prove of the survey of the survey of the survey of the prove of the survey of th
