NON-METALLIC BOXES UL LISTED

INSTALLED

FOR NEW OR INSTALLED FLOORS

Arlington's UL Listed **FLOOR BOXES** offer installers the low cost, *convenient* way to put a receptacle in the floor.

We have a floor box for nearly any job site condition. There's a box for new concrete pours, a box for installed floors – and an *adjustable* box that fits most finished floor heights up to 2". All are available with oversized non-metallic or metal covers.

Our non-metallic boxes come with gasketed covers that prevent water intrusion – and your choice of threaded blanks or flip lids that protect the receptacle when it's not in use.

Best of all, the oversized rectangular covers hide miscut flooring!

Covers for Arlington's floor boxes are available in a variety of colors and finishes.

Non-metallic in white, black, brown, light almond and metal in brass and nickel-plated brass.

They're clean, neat and cost less too!

FOR INSTALLED FLOORS
