## **Series LF009**

## Reduced Pressure Zone Assemblies

Sizes: 1/4" - 3" (8 - 80mm)

Series LF009 Reduced Pressure Zone Assemblies are designed to protect potable water supplies in accordance with national plumbing codes and water authority requirements. This series can be used in a variety of installations, including the prevention of health hazard crossconnections in piping systems or for containment at the service line entrance. The LF009 features Lead Free\* construction to comply with Lead Free\* installation requirements.

This series features two in-line, independent check valves, captured springs and replaceable check seats with an intermediate relief valve. Its compact modular design facilitates easy maintenance and assembly access. Sizes  $\frac{1}{4}$ " -1" (8 -25mm) shutoffs have tee handles.

### **Features**

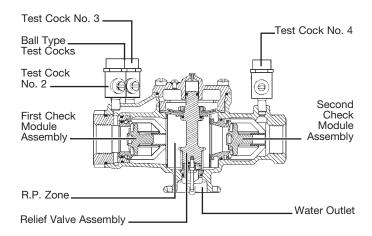

- Single access cover and modular check construction for ease of maintenance
- Top entry all internals immediately accessible
- Captured springs for safe maintenance
- Internal relief valve for reduced installation clearances
- Replaceable seats for economical repair
- $\bullet$  Lead Free\* cast copper silicon alloy body construction for durability  $1\!/4"-2"$  (8 50mm)
- Fused epoxy coated cast iron body 21/2" and 3" (65 and 80mm)
- Ball valve test cocks screwdriver slotted 1/4" 2" (8 50mm)
- Large body passages provides low pressure drop
- Compact, space saving design
- No special tools required for servicing

### **Specifications**

A Reduced Pressure Zone Assembly shall be installed at each potential health hazard location to prevent backflow due to backsiphonage and/ or backpressure. The assembly shall consist of an internal pressure differential relief valve located in a zone between two positive seating check modules with captured springs and silicone seat discs. Seats and seat discs shall be replaceable in both check modules and the relief valve. There shall be no threads or screws in the waterway exposed to line fluids. Service of all internal components shall be through a single access cover secured with stainless steel bolts. Body and shutoffs shall be constructed using Lead Free\* cast copper silicon alloy materials. Lead Free\* reduced pressure zone assembly shall comply with state codes and standards, where applicable, requiring reduced lead content.

The assembly shall also include two resilient seated isolation valves, four resilient seated test cocks and an air gap drain fitting. The assembly shall meet the requirements of: USC; ASSE Std. 1013; AWWA Std. C511; CSA B64.4. Shall be a Watts Series LF009.

# Now Available WattsBox Insulated Enclosures.

For more information, send for literature ES-WB.

### NOTICE

Inquire with governing authorities for local installation requirements

\*The wetted surface of this product contacted by consumable water contains less than 0.25% of lead by weight.

### Available Models: 1/4" - 2" (8 - 50mm)

#### Suffix:

QT - quarter-turn ball valves

S - strainer

LF – without shutoff valves PC – internal polymer coating

#### Prefix:

U - union connections

# Available Models: $2\frac{1}{2}$ " – 3" (65 – 80mm) Suffix:

NRS - non-rising stem resilient seated gate valves

OSY – UL/FM outside stem and yoke resilient seated gate valves

S-FDA - FDA epoxy coated strainer

QT-FDA - FDA epoxy coated quarter-turn ball valves

LF - without shutoff valves

Note: The installation of a drain line is recommended. When installing a drain line, an air gap is necessary (see ES-AG).

### Materials: 1/4" - 2" (8 - 50mm)

Lead Free\* cast copper silicon alloy body construction, silicone rubber disc material in the first and second check plus the relief valve. Replaceable polymer check seats for first and second checks. Removable stainless steel relief valve seat. Stainless steel cover bolts.

Standardly furnished with NPT body connections. Model LF009QT furnished with quarter-turn, full port, resilient seated, Lead Free\* cast copper silicon alloy body ball valve shutoffs.

### Materials: 21/2" and 3" (65 - 80mm)

- (FDA approved) Epoxy coated cast iron unibody with plastic seats
- Relief valve with stainless steel seat and trim
- Lead Free cast copper silicon alloy body ball valve test cocks

### Pressure / Temperature

Sizes  $^{1}/_{4}$ " –  $^{2}$ " (8 – 50mm) Suitable for supply pressure up to 175psi (12 bar). Water temperature:  $33^{\circ}F - 180^{\circ}F$  (0.5° – 75°C).

Sizes 2<sup>1</sup>/<sub>2</sub>" and 3" (65 and 80mm) are suitable for supply pressures up to 175psi (12.1 bar) and water temperature at 110°F (43°C) continuous, 140°F (60°C) intermittent.

#### **Standards**

USC

ASSE No. 1013 AWWA C511 CSA B64.4

IAPMO File No. 1563.

### **Approvals**

ASSE, AWWA, CSA, IAPMO

Approved by the Foundation for Cross-Connection Control and Hydraulic Research at the University of Southern California.

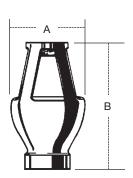

Approval models QT, PC, NRS, OSY.

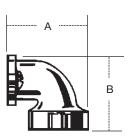

**UL** Classified

 $2^1\!\!/\!_{\rm "}$  and 3" (65 and 80mm) with OSY gate valves.  $^3\!\!/\!_{\rm 4}$  - 2" (20-50mm) without shutoff valves (-LF) (except LF009M3LF)
