

# ER-LED

## 2-WIRE, LED INSTANT FLEXILIGHT (ROPELIGHT)

The LED Instant Flexilight, 1/2" in diameter and rated at 100,000 hours, is the newest product in its family. Since we only use the highest-quality PVC material along with UV additives, the Instant Flexilight can be used in indoor or outdoor applications and can withstand both freezing and scorching weather. The LED Instant Flexilight is very easy to use for a wide variety of design purposes, such as creating meaningful patterns in lighting projects; illuminating the edges of buildings, stairs, and other objects; or simply making a promotional sign.
