

Induction-hardened cutting edges make quick work of the tough stuff.

WIRE
Copper, vinyl coated, steel and aluminum

CHAIN
Light duty, hobby, and craft chain

FASTENERS
Bolts, nails, rivets, and screws

FENCING
Barbed wire, chicken wire, hardware cloth

HARD MATERIALS
Spring steel and piano wire

Cutting Applications and Capacities

Material	Maximum Diameter
SOFT (copper, aluminum, plastics, drop ceiling wire)	.24 inches (6.0 mm)
MEDIUM HARD (nails, rivets, wire pins, light chain)	.20 inches (5.2 mm)
HARD (steel wire, wire rope strands, chicken wire)	.16 inches (4.0 mm)
VERY HARD (spring steel, music/piano wire)	.15 inches (3.8 mm)

Catalog No	Description
0890MC	Straight Cutter for maximum power, with easy-to-clean Plastic Dipped Grips
0890MA	Angle Cutter for nearly flush cuts, with easy-to-clean Plastic Dipped Grips
0890SMC	Spring Return Straight Cutter, with Locking Latch and Dual-Material Co-Molded Grips for extra comfort in highly repetitive production applications

Compact bolt cutters from H.K. Porter®, the brand that wrote the book.

Specifications subject to change without notice.

Compact cutting power with half the effort of standard Lineman's pliers.

Straight Cutter model has center cut blades for longest life. Angle Cutter model has flush cut blades for trimming close. Both have smooth plastic dipped grips for maximum durability and easy clean-up.

**FLUSH CUT
BLADES**

Heavy-duty design for maximum durability

**CENTER CUT
BLADES**

Induction-hardened cutting edges for exceptional performance and long life

Recessed throat notch for 50% less cutting effort

Smooth plastic dipped grips wipe clean fast

Cut it close

Angle Cutter head can be positioned flat against cutting surface for clean, nearly flush cuts, making it perfect for jobs like finish trimming of metal wire fencing.

For maximum comfort and minimum fatigue, the Spring Return Straight Cutter features co-molded grips and a durable return spring for repetitive-cut production applications. Its straight head and center cut blades make it fast and easy to use.

Robust locking latch is easy to use, even with gloves

Recessed throat notch for 50% less cutting effort

**SPRING
LOADED**

**CENTER CUT
BLADES**

Extra-wide dual-material co-molded grips for superior fit and comfort

Heavy-duty spring returns blades to open position for high production applications

Induction-hardened cutting edges for exceptional performance and long life

50% Less Effort

Every HKP Compact Bolt Cutter has a precision engineered recessed throat notch that holds material closer to joint for maximum leverage and 50% less cutting effort compared to standard Lineman's pliers.
