Oil-Only Pillow in a Pan #WPIL1224 - 10.5" x 10.5" x 3", 24 pillows/package

For an economical solution to high-volume leaks and drips, try this Oil-Only Pillow in a Pan. When saturated, you simply replace the Pillow and reuse the Pan.

- Efficient, Cost-Effective: Each Oil-Only Pillow absorbs up to 3 quarts of oil or other oil-based liquid while actually repelling water. By selectively absorbing petroleum-based liquids and not water, these Pillows take in more oil and can be left on the job longer. This kind of efficiency makes the Pillow in a Pan an ideal choice for catching recurring or continuous high-volume leaks.
- Makes a Great "Quick Response" Absorbent: No preparation required. Simply set it in place, and watch it go to work. With high absorbency and a holding depth of 3", the Pillow in a Pan provides the volume capacity you need to handle a variety of sorbency situations.
- Color-Coded: Color-coding helps you visually identify the right sorbent for your needs. White designates Oil-Only sorbency and makes it easy to identify when saturated.
