Spring Action and Original KwikCut™

These multi-purpose cutters are designed to make quick work of Polyethylene pipe, thin wall PVC, hose, tubing and most other non-metal items. Our blades are manufactured in our Colorado facility using a proprietary blade making system from the longest lasting, highest quality metal. This ensures exceptional quality control throughout the production process and creates a blade that is sharper and holds its edge longer for more clean, precise cuts. Together with the tough fiberglass reinforced nylon handles KwikCut is the highest quality cutter on the market at any price.

100 and 135 series models are available with orange or black handles as well as stainless steel or PTFE coated blades. SS200 and SL200 are only available with black handles and stainless blades.

KwikRepair™
Professional Quality

One-Piece PVC In-Line Repair and Fitting Replacement.

The Only Permanent Solvent Weld Repair.

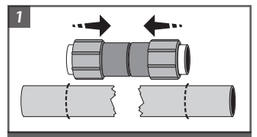

Patent
6318761

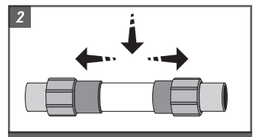

KwikRepair Tee and Coupler

KwikRepair™ makes in-line installation or repair of PVC lines faster, easier, stronger and more cost efficient with just 1 fitting. The KwikRepair sleeves slide onto the pipe, once primer and solvent is applied to the end of the fitting and end of the pipe being repaired, eliminating bending or flexing of the pipe. Made in the USA in our Colorado factory.

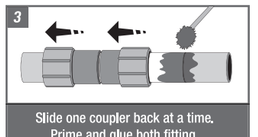

- Do the job with just one fitting
- Permanent solvent weld seal
- Effective for limited space applications
- No Thrust Blocking or Staking needed

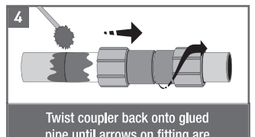

Use fitting as template to ensure exact fit.

Install fitting and dry fit couplers.

Slide one coupler back at a time. Prime and glue both fitting body and pipe.

Twist coupler back onto glued pipe until arrows on fitting are fully exposed. Hold until set.
