

Metering Faucets

CHICAGO FAUCETS®
a Geberit company

Metering Faucets With MVP™ Technology

Metering faucets prevent faucet run-on and provide safety, ease of operation, and water conservation. The 3300, 3400, and 3500 Series faucets feature the adjustable MVP™ cartridge that allows the installer to customize the faucet run time to site conditions. The time-tested, patented design is backed by an industry leading 5-year warranty. The MVP cartridge, combined with a low-flow outlet, can provide significant water savings.

A Big Impact on Water Savings

Here's an example of the kind of water savings that can be achieved when you replace 20 older faucets with a 3300, 3400, or 3500 Series faucet.

Savings based on replacing 20 faucets with 2.2 GPM flow rates, 30 minutes of use per faucet per day, 260 days per year. Faucet lifetime estimated at 12.5 years.

Time-Tested Design

Proven Performance
Over 10 years of proven market performance, backed by an industry leading 5-year warranty

Exceptional Operation
Self-closing push button handle provides precise water flow for preset cycle time; patented self-cleaning feature for longer life span

Easy Adjustment
Easily accessible timing adjustment nut allows timing modification (from 1 to 30 seconds*) without turning off water supply

Easy Maintenance
Simple cartridge design with a minimal number of moving parts for easy maintenance

*Adjustment range will vary due to a number of factors including, but not limited to, incoming water pressure, water temperature, and outlet flow rate. Consult local codes regarding flow rate requirements.

CHICAGO FAUCETS®

The 3300/3400 Series

The 3300/3400 Series combines excellent water conservation with unsurpassed durability and dependability. The one-piece, chrome plated, solid brass body features a robust 4-3/4″ spout. Vandal resistant features are built right into the handle and outlet making it an ideal choice for high-use, high-abuse locations. The time-tested MVP™ cartridge and minimal moving parts allow easy maintenance.

Durable and Dependable

Withstands High-use Environments
Solid brass, chrome-plated body and secure deck attachment with pre-installed shanks

Vandal Resistance
Metal handle with concealed screw prevents tampering; vandal resistant spray outlet

Water Savings
Self-closing mechanism for precise water flow, shuts off automatically; 0.5 GPM outlet and adjustable cartridge for even greater savings

Dependable and Easy to Maintain
Time tested MVP cartridge and minimal moving parts

Easy to Install
Locknuts attach quickly to pre-installed shanks; tapered inlet features standard 1/2″ NPSM threads

Flexible, Convenient
Available with user-adjustable external temperature control or non-mixing for single or dual supply inlets

CF NOW! ECAST CALGreen

The 3300/3400 Series

3300-ABCP	User adjustable temperature control mixer, 0.5 GPM vandal proof non-aerating outlet
3400-ABCP	Single supply for tempered water, 0.5 GPM vandal proof non-aerating outlet
3400-TABCP	Dual supply with inlet tee connection, 0.5 GPM vandal proof non-aerating outlet

CHICAGO FAUCETS

The 3500 Series

The 3500 Series delivers a whole new level of style, convenience, and affordability to our line of water conserving metering faucets. The 3500 is easy to install, easy to operate, and easy on the budget. Best of all, it can dramatically reduce water use when compared to older 2-handle faucets. And since it's from Chicago Faucets, you can count on long lasting operation and simple maintenance.

Sleek, Stylish, and Affordable

Modern Design at an Affordable Price
An affordable, sleek look that complements almost any lavatory application

Water Savings
Self-closing mechanism for precise water flow, shuts off automatically; 0.5 GPM outlet and adjustable cartridge for even greater savings

Flexible, Convenient
Available with user-adjustable external temperature control or concealed internal temperature control for added comfort and safety

Durable
Handle and non-aerating outlet resist tampering

Easy to Install
Pre-installed stainless steel hoses connect to standard water supplies; above-deck access for internal temperature control

Easy to Service
Time-tested MVP cartridge is easy to adjust; parts are always available for reduced downtime and lower maintenance costs

Fits Any Application
Basic model fits single-hole sinks; add an optional cover plate for 4″ or 8″ centers

The 3500 Series

3500-E2805ABCP	Single supply for tempered water, single hole, 0.5 GPM vandal proof non-aerating outlet
3500-4E2805ABCP	Single supply for tempered water, 4″ coverplate, 0.5 GPM vandal proof non-aerating outlet
3500-8E2805ABCP	Single supply for tempered water, 8″ coverplate, 0.5 GPM vandal proof non-aerating outlet
3501-E2805ABCP	Concealed internal temperature control mixer, single hole, 0.5 GPM vandal proof non-aerating outlet
3501-4E2805ABCP	Concealed internal temperature control mixer, 4″ coverplate, 0.5 GPM vandal proof non-aerating outlet
3501-8E2805ABCP	Concealed internal temperature control mixer, 8″ coverplate, 0.5 GPM vandal proof non-aerating outlet
3502-E2805ABCP	User adjustable temperature control mixer, single hole, 0.5 GPM vandal proof non-aerating outlet
3502-4E2805ABCP	User adjustable temperature control mixer, 4″ coverplate and 0.5 GPM vandal proof non-aerating outlet
3502-8E2805ABCP	User adjustable temperature control mixer, 8″ coverplate and 0.5 GPM vandal proof non-aerating outlet

We are a member of the U.S. Green Building Council and support the Leadership in Energy and Environmental Design (LEED) Green Building Rating System™, to measure the efficiency and sustainability of buildings in the U.S. and Canada. If you are trying to achieve LEED Certification for your building, our low-flow outlets, metering cartridges, and sensor-operated faucets can contribute points in these areas: Water Efficiency Credit 2: Innovative Wastewater Technologies and Water Efficiency Credit 3: Water Use Reduction.

We are proud to be a partner with WaterSense®, sponsored by the EPA and designed to protect the future of our nation's water supply by promoting efficiency and enhancing the market for water efficient products, programs, and practices.

We are a charter sponsor of the Alliance for Water Efficiency, a non-profit organization that is dedicated to the efficient and sustainable use of water. It brings together a diverse range of stakeholders to advocate water efficiency and conservation.
