

# TIGRESS™ MULTI-LAMP TEMPORARY LIGHT FIXTURE

Engineered Products Company's TIGRESS Multi-Lamp Temporary Light Fixture is a low cost, energy efficient lighting solution that is highly functional for use in low to medium bay lighting applications and a recommended alternative to metal halide luminaires.

## BENEFITS

- ETL Listed.
- Suitable for use in Dry or Damp Environments.
- Multi-Input Voltage Range: 120-277 VAC @ 60/50 Hz
- Cost effective, virtually no maintenance.
- Compact size and balanced construction for easy handling.
- Pre-installed "Snap-Lock" Hang Hook expedites installation to virtually any structure (e.g., rebar, steel, plastic pipe, or copper tubing).
- Minimal assembly required!
- 1-Year Warranty. For warranty information visit [www.engproducts.com](http://www.engproducts.com).

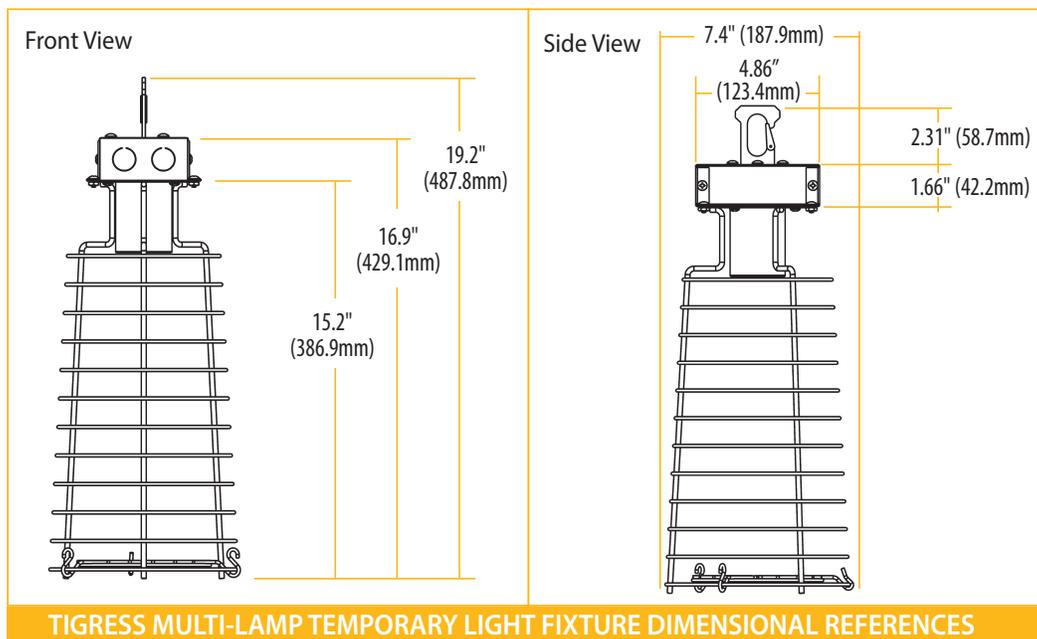

## FEATURES

- Rugged and durable steel housing with high-visibility powder coated finish. Includes 11-Gauge Wire Safety Cage.
- Four (4) 1/2" trade size knockouts on both sides of the power head to provide conduit access and facilitate "daisy-chaining" light fixtures.
- Accommodates a 6-inch diameter 150-Watt LED Corn Cob Lamp or any E39 mogul-base self-ballasted lamp.

**Note:** The intended use lamp must match the voltage! Example: If you select a high lumen Compact Fluorescent Lamp (CFL) for lighting larger spaces such as showrooms, warehouses, and other commercial applications you must ensure the lamp can handle the "selected" voltage. Voltage requirements can be found on the lamp's specifications sheet.

## CONFIGURABILITY

Power Cords are not included with this Temporary Light Fixture but can be added using the part numbers shown below. Use EPCO’s durable power cords to power an individual temporary light fixture or to facilitate “daisy-chaining” one light fixture to another.

Manufactured using 16 AWG 3-wire heavy-duty vinyl conductors, one end is pre-stripped at the factory and the other end has a straight or twist-lock grounded male plug.

These power cords and receptacle are UL Listed and meet the requirements of the 2017 National Electrical Code: Articles 422.16(B)(1) and (2).
