

# SICOMET

## Henkel Quality. Uncompromising Value.

### Versatile instant adhesives for a wide range of applications

SICOMET is a general-purpose, clear, ethyl-grade instant adhesive that provides excellent bond strengths on many materials including plastics, elastomers, metals and composites. Available in low and medium viscosity, as well as a gel formula, this versatile instant adhesive can be used for a wide variety of applications ranging from costume jewelry to furniture to sporting goods. SICOMET provides value-priced instant adhesives that meet Henkel's standards for quality.

#### Medium Viscosity

- Fixtures in 5 seconds
- Temp. range: -40°C to +100°C

#### Low Viscosity

- Fixtures in 5 seconds
- Temp. range: -40°C to +100°C

#### Gel

- Fixtures in 5 seconds
- Temp. range: -40°C to +100°C
- Well suited for porous and acidic surfaces
