

GROUND RESISTANCE TESTER

Ground Resistance Tester

Cat No: CMGRT-100A

UPC No: 783310082217

Description

Measure Grounding Circuit Performance Without Disrupting Service

- Reads ground resistance down to 0.10 Ω ;
- Fully auto-ranging with data hold to capture readings
- Accessories included: Molded carrying case, 9V Alkaline Battery and calibration verification loop
- Impedance function capable of testing 4 separate frequencies (50Hz, 60Hz, 128Hz, & 2083Hz)
- Widest operating temperature range (- 4 to 131°F) in the industry

Specifications

- Display :
 - 1.) OLED; Large, Bright
 - 2.) 3-3/4--digit, 4000 counts
- Frequency Rating : (4); 50, 60, 128, 2033Hz
- Ground Resistance Measurement : .01 to 1500 ohms
- Includes : Calibration loop
- Jaw Opening : 1.4
- Measurement Category : Cat IV: 600V
- Operation Type : Hand Held
- Replacement Part : Calibration Loop
- Resistance Measurement : .1 to 1500 ohms
- Standard : CE, ETL
