Description

- Cut through steel, tin, aluminum, fiberglass, wood and plastic
- Deep 1-5/8" (41.3 mm) cutting depth allows for cutting through 2" x 4" wood studs
- Extra-tough bi-metal blade, we use the highest grade of tool steel to outlast competitor's blades. That beats premature saw replacement and saves you money
- Steam oxide finish no paint to gum up and slow cutting. The saw runs cooler for longer life and better performance
