Rail Depth Adapter Bracket *RDAB Series*

In the past, mounting deep equipment to a 2-post rack was a major challenge. Deep equipment, when not properly supported can sag and cause damage to the equipment housing. The Equipment Rail Depth Adapter Bracket (RDAB Series). Available in 15, 20, 26 and 31 inch depths, the RDAB series securely mounts to the 2-post frame positioning equipment in the center of the rack. This helps stabilize the rack while using less space than having equipment mounted behind.

Features

- Constructed in 14-gauge steel.
- Available in four (4) depths.
- Angles mount to 19, 23 and 24 inch EIA rack mounting rails.
- Ideal for mounting a UPS, Server, Switch, NVR and other rack mount equipment.
