Features and Benefits

- Self-adjusting: internal microprocessor continually analyzes, evaluates and adjusts the sensitivity and time delay. Performance is kept at a maximum and user complaints are eliminated.
- Fast, simple installation: easy ceiling mount, three wire connection (low voltage) and twist-lock sensor attachment for 360° rotation and flexibility
- Maximum reliability, low cost: digital circuitry uses a minimum of components
- Small motion sensitivity: the ultrasonic technology provides excellent small motion sensitivity
- Wide coverage: units from 500 to 2000 sq. ft.
- Rugged, high-impact, injection molded plastic device, custom true white color to meet true white applications
- Applications: cafeterias, conference rooms, day care centers, workspaces, offices with cubicles
