Connected Home Structured Media® Components

Today's home is part business, part school and part entertainment complex. Leviton has what you need to keep homeowners wired for the good things in life. Leviton meets these challenges by using the kind of structured cabling employed in demanding commercial facilities and combining it with multimedia. This approach provides the bandwidth and speed needed for voice, data and Internet access, audio and video. Set ups can be as simple as cable TV and telephone in a few rooms or as complex as a local area network (LAN) for a small office or large home.

Structured Media® Enclosures

The 14" Enclosure is the entry level for home networking. This professional grade enclosure creates one distribution point for an apartment or smaller home for all low voltage cables. It accommodates two Pre-Configured Structured Cabling Panels and is built tough to make installation easier and help reduce labor costs.

The 28" and 42" Enclosures serve single family homes as command central for communications, education, entertainment, and business needs. They also offer an industry-first riser ready innovation, a time saving improvement for installers in the field. Both the 28" and the 42" Enclosures can easily accommodate DSL and cable Internet modems, networking, cable and satellite video. They also serve VoIP, IPTV, fax, multiple telephone lines, video monitoring cameras, intercom, and distributed audio. By bringing every conceivable technology distribution point together in one place, these enclosures make running cable and managing media both simple and cost effective. Incorporate a hospital grade power quality module for maximum protection from line surges.

The 28" Enclosure can comfortably accommodate up to eight distribution modules, depending on selection and density. The 42" Enclosure has generous capacity for up to 12 modules, and can also simultaneously accommodate many diverse functions. In larger homes, many contractors specify multiple Structured Media® Centers, sometimes separating coaxial cable-based CATV or Satellite TV equipment from the CAT 5e or CAT 6 UTP-based communications and networking equipment.

Please specify the appropriate size media center and allow for Module planning before you begin your project.

Specifications and Features

- Choice of three enclosure sizes address different capacities and provide extensible functionality for "wired" homes
- Accommodates full width Pre-Configured Structured Cabling Panels, delivering audio/video, voice and data to any room of the home or office
- Positive tabs on housing sidewalls prevent enclosure from falling through the studs during installation
- One piece white steel unit holds full and half width expansion modules, panels and brackets
- Can be surface mounted or recessed
- Powder coated white cover features 3/4" overlap to hide irregular drywall cuts
- Upgrade to 28" or 42" Enclosures for larger installations or future expansion
- Multiple knock-outs on top and bottom, including two 2" knock-outs on top, facilitate cable entry and routing
- Cut out in base of enclosure for mounting single and double gang J-boxes and power modules
- Six 3" square self healing foam grommets accommodate and protect cable bundles and protect cables from being cut
- Holds 1/4, 1/2 and full-width expansion modules with the ability to mount most modules vertically or horizontally
- Mounting guides on the cover align screw holes and help to hold the cover in place during installation
- Threaded inserts added to enclosures ensure accurate threading of supplied machine screws when mounting cover
- Designed to accommodate safe, high quality hospital grade power module with transient voltage surge suppression
- Locking latch with key is available for hinged covers
- Job packed units save labor and reduce waste and clean up

28" and 42" Enclosure Extender Brackets

The Extender Brackets provide an additional 2" of depth and enhanced ventilation for the 28" and 42" Enclosures. The Extender Brackets attach between the enclosure and the cover to form a frame which has four 2" deep sheet metal rails with louvers on each side. The increase in depth allows for better cable management and for larger modules within the Structured Media® Center.

Specifications and Features

- Made of sturdy, white powder-coated 18-gauge sheet metal
- Louvers in the Extender Brackets enhance ventilation for added protection against heat build up from installed modules

Limited Warranties

Most Leviton Structured Media® products include a limited Two-Year product warranty. Leviton Residential Network Installers are authorized to provide a 25-Year limited product warranty on selected products.

Media Versatile Panel™

The Media Versatile Panel was made for custom retrofits and remodeling. The 24" high steel panel has a securable door and can accommodate a wide variety of Structured Media Distribution Modules and other devices. This sturdy industrial grade panel can be surface mounted or recessed in the wall. In the case of non-standard stud spacing, optional mounting brackets may be used. The Media Versatile Panel is available in a black powder-coat finish.

Specifications and Features

- Eight 1" or 1.5" conduit fittings on top and bottom facilitate cable entry and routing
- Wall-mount or recess
- Ideal for new installations or retrofits
- Securable door provides maximum protection from dust and unauthorized entry
- Plywood backing allows open architecture for customizing layout and can accommodate a wide variety of Structured Media Distribution Modules

Compact Structured Media® Enclosure

This unit is a compact, cost effective distribution point for media in smaller apartments and small condominiums. Easy to install, the Compact Structured Media Enclosure accommodates a variety of telephone and video configurations.

Specifications and Features

- Flexibility to accommodate a variety of telephone/video distribution configurations
- Snap-on cover requires no tools or fasteners
- Molded-in brackets provide quick snap-in convenience for Expansion Boards
- Angled video splitter shelf for easy installation
- Hosts up to three Expansion Boards and one Passive Video Splitter
- Available empty with cover or in two kit versions with a 1x6 Telephone Expansion Board or with a 1x6 Telephone Expansion Board and a 1 GHz 6-Way Splitter

Mounting Brackets

Several different brackets mount a variety of Leviton or other devices and enhance the capability of the Structured Media® Centers. The Plastic Single Bracket accepts mounting of any single width Leviton expansion board, such as the phone, data, security or DSL Filter Board within the Structured Media Center. The Plastic Expansion Bracket is a full width bracket that can be populated with up to five Leviton phone, data, security or DSL Filter Expansion Boards. The universal design of the Plastic Data Bracket enables mounting of other manufacturers' switches, routers, broadband modems, media converters and FTTH gateways within Leviton's Structured Media Centers. The plastic half bracket accepts up to three Leviton single width expansion boards and the removable spines allow for all TLDM board mounting.

Specifications and Features

- All plastic brackets
- Made of sturdy white ABS plastic
- Comes with push-lock pins
- Snap-in installation in any 14" 28" or 42" Structured Media Center
- Allows for cable management via routing under bracket

Plastic Expansion Bracket for mounting up to five Leviton phone, data, security or DSL Filter Expansion Boards	47612-EBK
Plastic Shelf Bracket for mounting up to four Leviton phone, data, security or DSL Filter, Expansion Boards and a Passive Splitter on a Leviton Series 140, 280 or 420 Structured Media® Center	47612-VSB
Plastic Half-Bracket for mounting up to three leviton phone, data, security or DSL Filter Expansion Boards	47612-HBK
Plastic Data Bracket for mounting switches, routers, broadband modems, media converters, and FTTH gateways	47612-DBK

Multimedia Adapter Bracket and Mounting Plates

Create a custom audio/video, copper or fiber mini-panel in a Structured Media® Center with the Multimedia Adapter Bracket. The Bracket supports a choice of two 6-pack mounting plates and snaps easily into any of Leviton's Structured Media Centers with push-pins. Pre-loaded mounting plates are available for BNC and F-connectors, or create a custom configuration with unloaded 6-pack QuickPort® plates. QuickPort plates accept any combination of the following QuickPort adapters or connectors: BNC, F-Connector, ST, FC, SC and MT-RJ Fiber Optics, Banana Jacks, Speaker Binding Posts, RCA, S-Video, Voice Grade and Category 5, 5e or 6. Brackets mount vertically or horizontally.

Specifications and Features

Multimedia Adapter Bracket

- Made of white powder coated sheet metal
- Accepts up to two 5F100 Series 6-pack plates
- Comes with push-lock pins

Universal Security and Shelf Brackets

The Universal Security Brackets allow consolidation and integration of security products into any of Leviton's 14", 28" or 42" Structured Media® Center Enclosures. The 6" and 12" Universal Security brackets accommodate the widest variety of security alarm panels. The 1" wide Brackets are sold in pairs with self tapping screws and insulating spaces so you can easily attach them to the panels. The Universal Shelf Bracket provides space for security batteries of various sizes as well as other products to be mounted with Leviton's 14", 28" or 42" Structured Media Centers. The Bracket comes with four 8" long Velcro® strips to strap down products to the shelf, ensuring both vertical and horizontal stability.

Specifications and Features

All Security Brackets

- Made of white powder-coated sheet steel
- Comes with push-lock pins

Universal Security Brackets

- Allows an unlimited number of upgrades (limited only by the enclosure's size) to be added to an existing security system terminated within any Leviton Structured Media Center
- Sold in pairs with self-tapping screws and spacers to easily connect the largest number of security alarm manufacturers' panels

Universal Shelf Bracket

- Allows security batteries and other products to be mounted inside any Leviton Structured Media Center
- Vertical and horizontal slots on bracket to accommodate Velcro® strips, ensuring vertical and horizontal stability

Combo Bracket

- Allows Leviton products to be installed in most non-Leviton structured wiring enclosures

Voice/Data/TV Panels

Leviton Voice/Data/TV Panels allow telephone, data and video to be routed throughout the home from one simple Panel. It's a flexible solution available in many different configurations. Its up to the minute, cost-efficient solution modules and expansion boards can be added as requirements change.

High Density/Low Profile Interconnect Panels

Leviton brings the engineering, standards compliance and reliability of our commercial and industrial offerings to your new home installations.

Specifications and Features

- High density, component-rated patching for both voice and Gigabit ethernet connections
- Built-in label holders to identify key connections
- A high-tech, aesthetic look for discerning customers

Pre-configured Structured Cabling Panels – Compact Series

Compact Pre-configured Structured Cabling Panels are the simple solution for basic telephone and TV distribution. These Panels feature a space saving profile and provide simple bridged telephone connections to nine locations and 1GHz video to four or six locations, respectively. Compact Series Panels are ideal for multi-dwelling units and apartments or any place where space and budgets are of great concern.

Power Supplies

Leviton takes special care in designing power modules and supplies for the Structured Media® Center. AC receptacle power modules come in both surge protected and non-surge protected versions. Power supplies are available in various output DC voltages and accommodate domestic and international AC inputs. Two supplies are housed in powder-coated steel enclosures that ingeniously drop into a cut out in the bottom of the Structured Media Center. This design allows you to install the power required without taking up valuable space inside the enclosure.

Surge Protection and Standard AC Power Modules and J-Box Kits

Leviton offers reliable surge protection AC Power Modules and J-Box kits. Both the AC Power Module and the J-Box kits work with the 14", 28" and 42" Structured Media Centers. Choose either surge protection for optimum protection or non-surge protective. The surge protected options provide EMI/RFI filtering that meets UL 1449 standards. The AC Power Modules feature two 15-Amp duplex receptacles and the J-Box kit features one 15-Amp duplex receptacle.

47605-DP

47605-ACS

AC POWER MODULES FOR 28" AND 42" STRUCTURED MEDIA ENCLOSURES

Description	Cat. No.	Dimensions	Input
Surge AC Power Module, two duplex receptacles Standards Compliance: UL 1449	47605-ODP	3.08" (78.2mm) H x 9.87" (250.7mm) W x 2.94" (74.7mm) D	2 @ 15A 120 VAC
Non-Surge AC Power Module, two duplex receptacles	47605-NDP	3.08" (78.2mm) H x 9.87" (250.7mm) W x 2.94" (74.7mm) D	2 @ 15A 120 VAC
AC Surge Module, six duplex receptacles	48212-06S	3.08" (78.2mm) H x 9.87" (250.7mm) W x 2.94" (74.7mm) D	2 @ 15A 120 VAC

J-BOX KITS FOR 14", 28" AND 42" STRUCTURED MEDIA CENTERS

Description	Cat. No.	Dimensions	Input
Surge J-Box Kit, one duplex receptacle, wallplate Standards Compliance: UL 1449	47605-ACS	2.00" (50.8mm) H x 3.00" (76.2mm) W x 2.50" (63.5mm) D	1 @ 15A 120 VAC
Non-Surge J-Box Kit, one duplex receptacle, wallplate	47605-ACN	2.00" (50.8mm) H x 3.00" (76.2mm) W x 2.50" (63.5mm) D	1 @ 15A 120 VAC

Universal DC Power Supplies

These compact units are designed specifically to fit into Leviton's 14", 28" and 42" Structured Media® Enclosures. They are compatible with any incoming AC voltage in the range of 90 to 264 VAC, 50 or 60 Hz. They have three, six, or nine 12VDC connectors providing from 10 to 40 watts of power. All modules provide short circuit overload and surge protection as well as EMI/RFI filtering to connected equipment.

Specifications and Features

- Surge protected units provide greater protection for line voltage modules, including multi-stage defense (L-N, L-G, N-G)
- Non-surge suppressor units provide a cost effective method of providing power to active components
- Safety clips protect outlets from dust, dirt and debris
- Saves valuable real estate by mounting on outside of Structured Media® Centers
- Meets UL 1449 standards

DC Bus

Leviton created the DC Bus in response to the additional requirements for high quality DC for components in the Structured Media® Center. This unique solution reduces clutter and opens up additional space in the Structured Media Enclosure by eliminating the need for more than two AC/DC power adapters. Powered by a single 12VDC adapter and a single 24VDC adapter, the DC Bus provides fully regulated, 12VDC and 24VDC power for several devices.

Specifications and Features

- Contains six 12VDC outputs
- Contains three 24VDC outputs, including one 1 F-connector for coaxial cable connection
- Comes with fully regulated 12V DC & 24V DC AC/DC power adapters
- Power indicating LEDs for both 12VDC and 24VDC inputs
- Comes with 2.1 mm mini power jacks and cords for 12VDC and 1.3 mm mini power jacks for 24VDC

48212-124

DC BUS

Description	Cat. No.
DC Bus - 12VDC & 24VDC	48212-124
Dimensions	2.13" (54.2mm) H x 6.57" (166.8mm) W x 2.43" (61.7mm) D
Input	12VDC and 24VDC AC/DC power adapters (supplied)
Output	Provides 12VDC power at up to 1500 mA total with outlets for five devices. Provides 24VDC power at up to 1000 mA total with outlets for three devices, including one with F-connector/coaxial cable requirements
Output Power Cables	Included for all but 24 VDC F-connector coaxial connection

Snap-in Modules for Structured Media Center Surge Module Bracket

Leviton's Snap-in Surge Protection Modules provide customized surge protection for all low voltage communication and data lines in the Structured Media Center. All Series 5950 Modules can snap-in to the Cat. No. 3950-BKT Surge Module Bracket. The bracket allows you to add and change modules to fit specific protection needs. Choose from a selection of protection modules for digital Satellite systems, Ethernet systems, cable TV, telephone/fax/modem and DSL/ADSL equipment.

Specifications and Features

- Interchangeable modules accommodate changing surge protection needs
- All modules easily snap into the 3950 Surge Module Bracket
- User friendly design - no wiring required
- Telephone/Fax/Modem Module acts as a splitter, allowing the connection of two devices

Data Networking

Leviton has routers to share Internet access, Ethernet switches offering additional ports for the in-home Local Area Network (LAN), and a complete collection of connectivity products for Category 5e and Category 6 high-speed networking to help homeowners get their work done. You'll find everything you need to meet today's increasingly complex home office requirements including support for Gigabit Ethernet.

Residential Grade

Data Networking

Specifications and Features

10/100 Router

- Connects up to four devices directly (up to 253 computers via a series of cascaded devices) to the Internet using a single shared high-speed DSL, cable modem or satellite connection
- Allows fast Internet access at up to 100 Mbps
- Includes four 10/100 Ethernet ports for in-home LAN connections
- Permits creation of a private high-speed home area network (HAN) or local area network (LAN) in small office/home office (SOHO) environments for all connected computers with its fast, integral 10/100 Mbps auto-sensing Ethernet ports
- High performance suitable for demanding home office and telecommuting applications, including sharing of high-speed and high-capacity devices such as storage devices and back up systems
- Network Address Translation (NAT) technology creates a firewall that securely cloaks the private network from outside access
- Pass-through IPSEC and ISAKMP protocols allow attached LAN users to implement secure Virtual Private Network (VPN) communication applications on their PCs
- Built in DHCP server allows for easy set up and allocation of IP addresses on the LAN
- Network protocols: TCP/IP, DHCP, DNS, NAT, TFTP, HTTP, PPPOE
- Auto detect uplink: use any port to cascade additional switches, hubs or routers
- Connections are made by running cable from desired wallplate locations to a Cat 5e Voice and Data Module. From there, a Cat 5 or 5e patch cord can be used to connect the Gateway to the Cat 5e Module

10/100/1000 Gigabit Router

- Includes all the features of the 10/100 Base-T Internet Gateway/Router plus 10/100/1000 Base-T data rates, plus the additional features below
- Full 1 Gbps performance on all ports
- Includes IEEE 802.3p and Quality of Service functions needed for optimum VoIP, IPTV, and high speed multi-user gaming performance
- Includes LEDs to indicate Power, Link/Activity 10, 100 and 1000 Mbps and WAN
- Features high performance store-and-forward switching architecture with CRC and Runt Filtering

10/100 Ethernet Switches

- Allows fast Ethernet access at up to 100Mbps
- Connects up to five devices (47611-5PT) or eight devices (47611-8PT) directly and allows expansion of LAN ports from the 10/100 Internet Gateway/Router
- Auto detect uplink: use any port to cascade additional switches, hubs or routers
- High performance suitable for demanding home office applications, including networking of high speed, high-capacity Ethernet devices such as storage devices and back up systems
- Connections are made by running cable from desired wallplate locations to a Cat 5e Voice and Data Module. From there, a Cat 5 or 5e patch cord can be used to connect the Switch to the Cat 5e Module

10/100/1000 Gigabit Ethernet Switch

- Includes all features of the 10/100 Base-T Ethernet Switch except at 10/100/1000 Base-T data rates, plus the additional features below
- Full 1 Gbps on all ports
- Expansion LAN ports for Gigabit-enabled IPTV sets and set top boxes, gaming consoles, network drives, and other very high speed peripherals
- Includes LEDs to indicate Power, Link/Activity 10, 100 and 1000 Mbps
- Features high performance store-and-forward switching architecture with CRC and Runt Filtering

Premium CATV Modules

Leviton's Premium CATV Modules distribute incoming RF signals (Cable TV, HDTV, Antenna or other modulated sources) to 1, 8 or 16 locations throughout the home or office on coaxial cable. The modules incorporate state-of-the-art bidirectional circuitry to support advanced interactive applications such as cable modem, cable box communications and standard inputs like incoming CATV and aerial antennas. Delivery of HDTV and high speed Internet services with streaming media and VoIP require improved transmission specifications. The Premium CATV module line is SCTE and DOCSIS compliant and digital cable ready to handle the latest 1 GHz cable operator technology.

Specifications and Features

1x1, 1x8, 1x16 CATV Modules

- Meets DOCSIS and SCTE transmission requirements
- Pre-tested by major CATV MSOs
- Automatically adjust output level as all active ports to match incoming signal level (unity gain)
- Durable aluminum die cast housing with white powder coating
- RF-sealed aluminum backplate provides beyond -110 dB RFI shielding measured per SCTE-IPS TP 403A1 Rev 1 test procedures
- F-ports provide up to 16 psi weather sealing
- Robust machine-threaded, gold plated brass F-ports meet SCTE requirements
- 360 degree sizing inserts retain center conductor up to pull-out tension of 200 grams
- Termination caps included for unused ports
- Easily installed into any Leviton Structured Media® Center in a horizontal or vertical direction
- Mounting bracket tilts for easy cable attachment and management
- 12VDC power supply included

3x1 CATV Module

- Digital CATV compatible
- Combines modulated signals from cameras, DVD player, etc., for home or office
- Provides bi-directional signal path to support cable modem or cable box communications
- Easily installs into Leviton's Structured Media enclosures either horizontally or vertically
- Robust machine-threaded, gold-plated brass ports meet SCTE requirements
- F-ports provide up to 15 psi weather sealing
- 360-degree sizing insert retains center conductor up to pullout tension of 200 grams on .032" diameter coax center conductors

Passive Components

Use 4-, 6- and 8-way Passive TV Splitters to split digital cable, quality cable TV and off-air antenna signals to four, six or eight televisions throughout the home. Leviton Passive Components feature die-cast housing and printed circuit board construction. Use with the Video Amplifier for increased signal strength.

Specifications and Features

- Splits TV signals. Outputs for up to four, six or eight televisions
- Provides digital cable, cable TV and other TV services, via coaxial cable, to any room in the house
- Die-cast housing and printed circuit board
- Use with the TV Amplifier for increased signal strength
- Units for 14", 28" and 42" Structured Media® Centers come with mounting bracket
- Gold flashed contacts on 2 GHz units provide lowest conductive resistance

Video Amplifier

Run antenna TV signal through Leviton's 1-way Video Amplifier Module and boost strength up to 25 dB. This Module features a variable attenuator for signal amplification level setting and an FM trap to eliminate unwanted FM interference. This Module is not intended for use with cable TV applications, such as cable modems, cable set top boxes or TVs with built-in cable access cards.

Specifications and Features

- Boosts strength of off-air antenna signal for video distribution
- Boosts signal strength by up to 25 dB

48210-VA

VIDEO AMPLIFIER MODULE

Cat. No.	48210-0VA
Dimensions	6.58" H x 3.67" W x 4.4" D
Frequency Range	50-1000 MHz
Gain Control Range	10-25 dB
FM Trap	25 dB
Impedance	75 Ohm
Connector Type	F-type
Power Source	12 VDC 500 mA

NOTE: Not for use in-line between one satellite dish (LNB) and DBS satellite TV receiver.

Satellite Distribution Components

3x4 Multi-Switch – The Passive Module combines signals from dual incoming LNB digital satellite systems with off-air antenna signals on a single coaxial cable, enabling distribution to up to four TVs. The Module incorporates a separate input for TV antenna signals and is best used in combination with a Video Amplifier.

Specifications and Features

- Distributes digital satellite signals to up to four TVs (47691-3MS)
- Combines signals from digital satellite with off-air antenna onto single coaxial cable
- DSS 75 Ohm and 2.0 GHz Combiner/Diplexer with DC Blocking (40856-DSS) is available to separate antenna and cable signals

Camera Systems

The Leviton Indoor/Outdoor Color Camera Monitoring System brings homeowners a high level of family security and safety that simply can't be matched by non-video sensors. Color video output runs through a Leviton Structured Media® Center and connects to any TV or video monitor in the home. Parents can keep a close watch on children and can see who is ringing the doorbell after dark. Cameras install quickly and easily with a single Cat 5, Cat 5e or Cat 6 cable run and two screws mounted to a mud ring (Indoor Camera) or outdoor box (Outdoor Camera).

Residential Grade

Leviton Camera Monitoring System

For sophisticated monitoring, Leviton offers high resolution, color video cameras. These easy to install cameras only require one Category 5e cable for video and power connections. The cameras mount with just two screws on a low voltage ring for an Indoor Camera or outdoor electrical box for an Outdoor Camera. A Camera Hub in the Structured Media® Center powers the cameras and separates out the video signals to other video equipment at the SMC. The Hub installs in a single Leviton bracket space in the SMC. Standard 110 IDC terminations and 8P8C jacks make the UTP cable connections quick, simple and reliable. The Indoor Camera fits in a Decora style wallplate and comes with clear and tinted lens covers. The Outdoor Camera provides video even in the dark using built in automatic IR illumination.

Media Center Modulator

Leviton's Media Center Modulator gives your whole house security on one channel when CATV channel spacing will allow it. The Modulator takes the signal from a security camera or, if you are using the Video Sequencer, multiple cameras, and modulates the signal to one unused cable TV channel. This signal is then combined with the CATV signal, which can be sent to TV sets anywhere in the home. Select the broadcast channel to be programmed via dip-switch button programming. The Modulator provides 0, 10, 20 or 30 dBmV RF output.

NOTE: Modulator broadcasts mono audio only. In a Structured Media® System, the Modulator must be used with a Leviton Notch Filter (PN 47690-NFA) to clear the target cable channel and avoid interference when used with Structured Media Video Distribution Modules.

48213-VMA

MEDIA CENTER MODULATOR

Cat. No.	48213-VMA
Dimensions:	3.34" (84.8mm) H x 3.59" (91.2mm) W x 0.98" (24.9mm) D
Inputs	RCA video, RCA audio inputs
Outputs	1 F-connector for RF signal
Operational Channels	14-69 UHF; 70-94, 100-125 CATV, settable via dip switches
Bandwidth	50 MHz-860 MHz
Power	12VDC 400 mA

Video Sequencer

Leviton engineered the Video Sequencer for reliable, long lasting performance. The Sequencer automatically switches between up to four cameras with composite video signals. With a variable time interval setting that ranges from 1-30 seconds, you can sequentially monitor each camera for thorough surveillance of your home's perimeter or interior. The Video Sequencer has four composite RCA audio/video inputs and two sets of RCA outputs to connect with a monitor or modulator. It snaps into a 28" or 42" Structured Media Center.

48213-CVS

VIDEO SEQUENCER

Cat. No.	48213-CVS
Dimensions	6.60" (167.7mm) H x 7.80" (198.1mm) W x 2.01" (51.1mm) D
Inputs	Four RCA video, eight RCA left/right audio
Outputs	Two RCA video, four RCA left/right audio
Time Interval	1-30 seconds, variable/adjustable
Signal to Noise Ratio	<1.2 dB
Bandwidth	5 MHz
Power	12VDC, 300 mA

RF Notch Filter

The RF Notch Filter is an essential element of Home Security Monitoring when using the Indoor/Outdoor B&W Camera or the Media Center Modulator. It blocks incoming cable TV channels 75-80, allowing the Media Center Modulator or Component Modulator to broadcast without interference an in house security or entertainment channel over the coaxial cable system. The Notch Filter simply couples to the coaxial cable TV input on either a splitter or an active video distribution device. Once installed, it filters out six cable channels to make room for home security or entertainment video. It also blocks outgoing signals, such as cameras, from being broadcast outside the home.

47690-NFA

RF NOTCH FILTER

Cat. No.	47690-NFA
Dimensions	3.59" (91.2mm) L x 0.81" (20.6mm) W
Type	Passive RF filter
Bandwidth	CATV channels 75-80
Input	Female F-connector
Output	Male F-connector

Video and Audio Intercom Systems

Leviton brings the home intercom into the 21st Century with an innovative system. The Ophera Video Entry System offers an excellent access solution for MDU and custom residential projects.

The Ophera Video Entry System integrates high-quality color video and audio components in a stylish combination intended to complement any décor.

Specifications and Features

Ophera Video Entry System

- Door release capable with re-lock delay
- Up to four entry stations and 100 apartments/suites per system
- 2,133 ft. maximum cable length per system
- Analog system uses CAT 5e and 18-2 twisted AWG cabling
- Choose single button or digital keypad entry panels

Ophera Hands-Free Receiver

- 3.5" color monitor on receiver
- Adjustable display tilts 20-degrees
- Mute, privacy and control buttons
- Call waiting notification
- Receiver includes three color inserts: white, arctic blue, orange
- Audio intercom function for up to eight receivers per apartment or suite

Entry Station

- Weather resistant video entry stations
- Integrated low-light color video camera with adjustable angle view
- LED backlit buttons
- LCD display on keypad model

Audio Intercom System for Structured Media® Applications

Specifications and Features

- Integrates with phone system
- Operates over standard Cat 5 wiring
- Main controller board installs easily into Leviton Structured Media Centers
- System integrates with other services in Structured Media Centers (phones, door strike, lighting controls, doorbell, dry contact security devices, and Indoor and Outdoor Stations)
- Onboard firmware for music-on-hold
- Answering machine function for message and message taking for intercom activations
- Allows call on-hold for hang-up at one location and pick-up at another
- Allows whole-house paging, including phone-to-phone paging
- Allows station queuing so multiple, simultaneous activations can be responded to automatically in sequence
- Integrated dry contacts provide security alert by motion, pressure and gate sensors, etc.
- Provides for remote monitoring of zones for added security
- Full duplex communication

QuickPlate™ Wallplates And Connectors

An all-in-one connectivity solution, Leviton QuickPlate Wallplates distribute data, phone and TV connections through a preassembled one-piece design offered in standard and midway sizes and in four colors: ivory, white, almond and light almond. Rear facing IDC punchdowns and consistent positioning of jack and F-connectors reduce ordering problems, eliminate onsite assembly, improve the overall décor, and provide the quickest installation available.

Specifications and Features

- All QuickPlates have a pleasing matte finish
- Robust one-piece wallplate and lead-frame jack design
- Rear facing 110 IDC punchdown for voice and data jacks make termination quick and easy
- Data port accepts Cat 5e with T568A wiring
- Phone port accepts UTP with USOC wiring
- F-connector for video applications is an F-81 style bulkhead connector
- Includes captive screws painted to match wallplate color
- Limited Two-Year Warranty

QuickPort® Multimedia Wallplate Inserts

You can have it all — voice, data, audio and video — through a single wallplate when you combine Decora® multimedia inserts with QuickPort Snap-In modules and Decora wallplates. Mix and match the snap-in modules in combinations of two, three, four or six. Decora inserts are compatible with the full line of standard Decora wallplates, Decora Plus™ snap-on wallplates with hidden mounting screws and Leviton sectional wallplates (all sold separately). The inserts fit standard NEMA wallboxes.

In-Wall/In-Ceiling Speakers

Many of the same features from professional studio technologies are built-into selected models in the Leviton Architectural Edition™ powered by JBL® series. Whatever the application, when the specs call for JBL In-Wall and In-Ceiling Speakers, the performance is guaranteed to bring a new meaning to the phrase “home entertainment.”

Specifications and Features

- JBL Titanium-laminate drivers for maintaining musical accuracy and clarity even at frequency extremes
- Straight-line Signal Path™ (SSP™) crossover network for minimal signal distortion
- Elliptical Oblate Spheroidal™ (EOS™) Waveguides for improved high frequency dispersion throughout the listening area
- Titanium-laminate drivers for the ultimate in musical accuracy and clarity
- HeatScape™ magnetic structures for greater bass impact and realism
- Long-excursion woofers with butyl-rubber half-round surrounds and extended pole-piece magnetic structures for maximum bass impact and dynamic range
- Low-diffraction, swivel-tweeter mounting system for optimum stereo imaging
- Heavy-duty push-type input terminals for long-term connection integrity
- Integrated dog-ear mounting brackets (optional rough-in kits available for pre-construction installation in new homes)
- Acoustically-transparent paintable baffles and grilles

Outdoor/All-Weather Speakers

Because outdoor music is more important than ever, the Leviton Architectural Edition™ powered by the JBL® line offers two outdoor/utility speaker solutions. Each is based on a professional counterpart and engineered to withstand long-term exposure to the elements while delivering full performance. Both bring a high-end listening experience to a deck, patio or poolside—wherever people expect to relax and entertain with comfort and style outside their home.

Specifications and Features

- Elliptical Oblate Spheroidal™ (EOS™) Waveguide technology for improved high-frequency dispersion
- Titanium-laminate (AEN24) or pure titanium (AES36) tweeter for maintaining musical accuracy and clarity even at frequency extremes
- WeatherPlas™ (polymer-coated cellulose fiber cone) woofers with rubber surround, high-temperature/oversized Kapton® voice coils, and HeatScape™ motor structures
- Straight-line Signal Path™ (SSP™) crossover networks for minimal signal distortion
- 5-way binding post input terminals for long-term connection integrity
- Mounting brackets (AEN24) and/or special mounting hardware (AES36) included
- Sold in pairs

Spec-Grade™ Speakers

Specifications and Features

- Kevlar® composite woofer provides the perfect linear movement needed to reproduce dynamic, tight bass and incisive midrange frequencies
- AeroNylon tweeter diaphragm for very low mass and high tensile strength to provide crystal-clear treble response and exceptionally accurate tracking of even the most challenging musical transients
- Built-in AutoSurge™ circuit protection helps prevent speaker damage
- Advanced phase/time alignment guide properly aligns sound without mis-aligning the tweeters
- Precision dividing network ensures total audio signal electronic integrity up to the last microsecond before the signal is converted into sound
- Inert mounting frame with “dogleg” installation points eliminates any transmitted vibrations that could color in-wall or ceiling sound quality

Home Theater Component Speakers

JBL® Systems measure up to a higher standard than typical home theaters, because more JBL speakers are found in film recording studios and behind the screens of the world's best movie theaters than any other brand. In the Leviton/JBL program, the same professional features and technologies that set JBL apart from the rest are ready for installation into advanced home theater systems—including leading-edge driver materials for clarity and definition, advanced crossover networks for signal purity, and “overbuilt” magnetic structures for maximum output and long-term reliability. Even the acoustically-transparent grilles concealing this speaker technology are inspired by JBL's years of professional experience in behind-the-screen theater sound systems.

Whether installed in a living room, family room, den or other entertainment space, Leviton Architectural Edition™ powered by JBL home theater speaker systems will thrill listeners with a theater quality listening experience.

Specifications and Features

JBL In-Wall/In-Ceiling Speakers

- JBL Titanium-laminate drivers (AEI65/80 in-wall and AEC65/80 and AEM65 in-ceiling models) or pure Titanium tweeter and Polymer-coated aluminum woofers (AEI55 installed center channel model) for maintaining musical accuracy and clarity even at frequency extremes
- Straight-line Signal Path™ (SSP™) crossover network for minimal signal distortion
- Long-excursion woofers with butyl-rubber half-round surrounds and extended pole-piece magnetic structures for maximum bass impact and dynamic range
- Low-diffraction, swivel-tweeter mounting system for optimum stereo imaging
- Heavy-duty push-type input terminals for long-term connection integrity
- Integrated dog-ear mounted brackets (optional rough-in kits available for pre construction installation in new homes)
- Acoustically-transparent paintable baffles and grilles

JBL Shelf-Mount Center Channel Speaker

- Straight-line Signal Path (SSP) crossover network for minimal signal distortion
- Dual 5-inch JBL PolyPlas™ cone woofers
- FreeFlow™ flared port for increased bass response without adding unwanted port noise
- Elliptical Oblate Spheroidal™ (EOS™) waveguide technology for improved high-frequency dispersion
- Acoustically-transparent silver grille included

JBL Subwoofer

- High efficiency, high current switching amplifier
- JBL's PolyPlas woofer for low frequencies
- FreeFlow flared port for increased bass response without adding unwanted port noise
- Variable low-pass crossover frequency controls and a phase switch allow for adjusting the AESUB to be adjusted to a room's particular acoustics and an individual's personal preference
- LFE and line level inputs for maximum connection flexibility
- Acoustically-transparent silver grille included

Straight-line Signal Path™, PolyPlas™, FreeFlow™ and Elliptical Oblate Spheroidal™ are trademarks of Harman International Industries, Incorporated.

Home Cinema Speaker System

Specifications and Features

Home Cinema Speakers

- Five-channel system expands to 6.1 and 7.1 Surround-Sound operation with the addition of optional AESS5 satellite speaker(s)
- Includes five 2-way magnetically-shielded satellite speakers with high-output 2.5" (63.5 mm) woofer and precision .5" (12.7 mm) tweeter; one 8" (200 mm) 100-Watt powered subwoofer with LFE input, adjustable level control, and built-in crossover network for use with speaker-level receiver outputs
- Includes five architectural-grade adjustable mounting brackets
- Includes subwoofer input RCA cable
- Available in white or black finish

Satellite Speaker

- Includes one 2-way magnetically-shielded satellite speaker with high-output 2.5" (63.5 mm) woofer and precision .5" (12.7 mm) tweeter
- Includes one architectural-grade adjustable mounting bracket

Adapter Wallplate/Rough-In Kit

- Includes mounting hardware (wallplate screws and thread cutting screws for bracket to wallplate mounting)
- Available in black or white finish

Harman/Kardon® Audio/Video Entertainment Center Components

There is no better way to assure the highest performance and value from a state-of-the-art Leviton Architectural Edition™ powered by JBL® system than to match it with the Harman/Kardon Entertainment Center.

Specifications and Features

Harman/Kardon A/V Receiver

- Selectable Surround Sound modes, including but not limited to: Logic 7®, DTS®, DTS® 96/24™, Dolby® Digital, Dolby Virtual Speaker Version 2, and Dolby Pro Logic® II & IIx
- High Current amplification/Ultra-Wide Bandwidth design with independent front and rear power supplies
- 1080 HDMI™ switching with Audio/Video processing
- Simplay HD™ verified
- EzSet/EQ automatic room/system correction equalization (calibrated microphone included)
- Automatic room/system correction equalization (calibrated microphone included)
- Converts composite and S-video sources to component video
- RS-232 port for future applications
- Programmable backlit remote control
- iPod® Bridge compatible

Harman/Kardon DVD Player

- Attractive case for shelf-top locations.
- Red talkback LED, tests system for correct wiring as well as indicating infrared reception
- Nominal reception angle: 45 degrees off axis
- Attached 7' cable and 3.5 mm stereo mini plug permits direct plug-in to Connecting Block that has an "IR RCVR" or "AUX" jack

Harman/Kardon® and A-BUS® Multi-Room Amplified Audio System (Hub and Volume Controls)

As an expansion option, Harman/Kardon offers the ability to connect with an A-BUS hub and amplified volume controls. This makes it possible to add multi-room music distribution right off the back of a compatible receiver. Each equipped room has a volume control with its own built-in amplifier suitable for casual or background indoor listening. Up to four rooms/zones can be operated from a single hub, which passes remote IR commands back from the volume controls and into the receiver so the user can access remote control functions from any A-BUS equipped room. The 4-zone A-BUS hub connects quickly and easily to the compatible interface port on the back of the advanced HKAVR receiver.

Specifications and Features

A-BUS Volume Control

- Decora® up/down amplified rocker-style volume control powers dedicated speakers in a single room/zone
- Built-in IR sensor accepts control commands to A/V receiver or other compatible components
- Fits in standard J-box or low-voltage mounting ring
- Output level trim pots
- Uses Category 5/5e UTP cabling

A-BUS Expansion Hub

- Distributes A-BUS audio signal and power to up to four rooms/zones with HKABV Volume Controls and connected speakers
- Easily connects to the RJ-45 A-BUS interface on the rear of an A-BUS Ready® HKAVR A/V Receiver

Leviton Architectural Edition™ Multi-Room Amplifiers

Leviton's Architectural Edition Multi-Room Audio Amplifiers combine advanced audio engineering, high-current performance and tremendous value in a single low-profile chassis. Superior multi-channel amplification supports even the most demanding residential multi-zone systems.

Designed for long-term use with advanced circuit protection and a thermostatically-controlled cooling fan, the AE6MA is a perfect balance of performance and simplicity. The AE6MC is the ultimate in listening flexibility, as advanced LCD keypads enable the selection of up to seven different audio sources in any room with full independent control—perfect for homes with a wide range of listening styles and preferences.

Specifications and Features

Leviton Architectural Edition Multiroom Amplifiers

- Automatic protection circuitry
- High efficiency/small space - Each of the twelve power amplifiers, inside the 3.5" high enclosure, delivers 50 Watts nominal (40 Watts RMS) with peaks of 100 Watts
- Individual input gain adjustment - Adjusts each channel for input and speaker sensitivity variations
- External power ON/OFF through external controllers (12VDC trigger output)
- Electronic Link feature - Allows for either six different stereo channel inputs to have individual sources, or for a different channel input's pair to share a common source depending on which link button is selected with a particular source (single-source amplifier model only; multi-room version has independent source selection and control)
- Cooling fan - A thermostatically-controlled internal fan helps prevent overheating, maximizes energy efficiency and ensures long-term reliability

AE6MC Multi-room Amplifier Additional Features

- Seven source input selection - Each of the six stereo amplifiers (12 channels total) has access to up to seven independent audio sources
- Six internal 80+ position stereo volume controls
- All-zone control through use of AE6MC keypad - Allows access to the entire system from a single keypad, as an entertainment feature. Keypad can be controlled remotely with an AE6MC remote (sold separately)

AE6MC

	12 Channel (6 Stereo Pairs) Power Amplifier	Seven-Source, Six-Room Multi- Channel Controller Amplifier
Cat. No.	AE6MA-000	AE6MC-000
Outputs	5-way gold-plated binding posts	Removable screw terminal type accepts 12-20 gauge wire
Total Harmonic Distortion (THD)	Less than 0.1% 20 Hz to 20 kHz	Less than 0.1% 20 Hz to 20 kHz
Signal-to-noise ratio	Over 105 dBA weighted (50 Watts)	Over 105 dBA weighted (50 Watts)
Fan noise	Quiet 28 dBA	Quiet 28 dBA
Height	3.5" (89 mm)	3.5" (89 mm)
Width	17" (432 mm)	17" (432 mm)
Depth	11.5" (292 mm)	11.5" (292 mm)
Weight	22 lb/ 10 kg	22 lb/ 10 kg

AE6MC MULTI-ROOM AMPLIFIER KEYPAD ACCESSORIES

Description	Cat. No.
Keypad Controller for AE6MC Amplifier	AE6MC-PAD
Remote Control for AE6MC Keypad Operation	AE6MC-RMT

Composer Series Volume Controls

Leviton's Composer Series Volume Controls are built to a single quality standard, which means system designers can specify them for any distributed sound application with total confidence. Leviton's Strauss Volume Control and Chopin Digital Volume Controls use the same heat dissipation technology used on the space shuttle. Their transformer-free design with audiophile-grade Cermetile resistors achieves ruler-flat frequency response across the entire audible frequency range while also eliminating the problem of "saturation" associated with conventional volume control and enabling them to handle tremendous amounts of music power.

Specifications and Features

Strauss Volume Control

- Decora® slide control with precision 12-position switch (including full OFF position)
- Transformer-Free attenuation technology ensures linear frequency response, signal integrity and high power handling ability
- Cermetile resistors replace conventional autoformers to preserve audio signal purity
- Detachable cable connector is compatible with all standard speaker wire sizes (14-18 gauge)
- Decora designer styling adds an elegant touch to any décor
- Can be used outdoors when mounted with any compatible Decora all weather cover

Chopin Volume Control

- No direct speaker/amplifier connections required at the volume control wall unit
- Digital, transformer-free design uses aerospace-grade Cermetile resistors for proper heat dissipation and superior performance
- Selectable boot-up feature allows automated volume level control upon powering of the stereo system
- Microprocessor controlled relays for silent switching
- Tap mute feature activated when pressing center of rocker switch
- 3-way volume control can be configured using extra controls

DECORA® STRAUSS TRANSFORMER-FREE VOLUME CONTROLS

	Decora Strauss Transformer-Free Volume Control	Decora Strauss Transformer-Free Impedance Matching Volume Control
Cat. No.	SGVST-00W	SGVSM-00W
Color	White (W)	White (W)
Frequency Response	20Hz-20kHz +/- 1dB	20Hz-20kHz +/- 1dB
Power Handling	200W peak/100W RMS	200W peak/100W RMS
Speaker Impedance	4-16 Ohms (nominal 8 Ohms)	4-16 Ohms (nominal 8 Ohms)
Mounting	Standard single-gang design (mounting Depth 2.5"/64 mm)	Standard single-gang design (mounting Depth 2.5"/64 mm)
Materials	Frame and slider: White Polycarbonate; high impact, fire retardant plastic rated UL94 V-O	Frame and slider: White Polycarbonate; high impact, fire retardant plastic rated UL94 V-O

Audio Distribution Modules

For system connectivity, the Leviton Architectural Edition™ line offers advanced and innovative audio distribution and control modules that centralize audio distribution connections and make for quicker, more reliable connections.

Specifications and Features

System Matching Module

- Combine with non impedance-matching Decora® Volume Controls to control up to six speaker pairs (cannot be used with impedance-matching volume controls)
- Mounts in Leviton's Structured Media® Centers
- Connects six rooms/zones
- AutoSurge™ circuit technology protects speakers from potentially damaging transients
- Transformer-Free™ impedance-matching design ensures linear frequency response, signal integrity, and high power handling capacity
- Aerospace-grade Cermetile resistors replace conventional autoformers to maintain audio signal purity
- Independent channel grounds assure safe connection for all conventional audio amplifiers
- Detachable cable connectors are compatible with all standard speaker wire sizes (14-18 gauge)

NOTE: to avoid amplifier damage, do not use the System Matching Module with impedance-matching volume controls

1x6 Audio Distribution Module

- Combine with impedance-matching Decora Volume Controls to control up to six speaker pairs from an amplifier or receiver
- Mounts in Leviton's Structured Media Centers
- Connects six rooms/zones
- Parallel connection scheme ensures the best sound quality
- User-removable connectors facilitate installation
- Connects with standard speaker wire
- Meets or exceeds applicable standards: UL and cULus listed

NOTE: to avoid amplifier damage, do not use the Audio Distribution Module with non-impedance matching volume controls

SGAMP

SYSTEM MATCHING MODULE FOR IMPEDANCE-MATCHING PASSIVE TWO-CHANNEL MULTI-ROOM AUDIO SYSTEMS

System Matching Module	
Cat. No.	SGAMP-000
Power Handling	150W RMS per channel/ 225W peak
Frequency Response	(+/- .5dB) 10Hz-40kHz
Dimensions	2.57" H x 6.38" W x 5.38" D (68.6 mm H x 161.9 mm W x 136.5 mm D)

1X6 AUDIO DISTRIBUTION MODULE

Cat. No.	48211-06A
Dimensions	6.58" H x 2.89" W x 1.42" D (167.1 mm H x 73.4 mm W x 36.1 mm D)
Wire Gauge	14-18 AWG
Requirements	Product must be used with impedance-matched volume controls or controllers

48211-6A

Leviton Architectural Edition™ Home Theater and Multi-Room Integrated Wallplates

These integrated wallplates combine the build-quality and signal path purity of a custom “audiophile” plate with the connectivity speed and convenience of a ready-made spring-clip design. Both home theater and multi-room audio versions are expandable using Leviton’s acclaimed QuickPort® snap-in modules. These plates are complete and ready-to-use, and make a “custom quality” statement in any installed entertainment system.

Specifications and Features

Home Theater and Multi-Room Wallplates

- Designed for easy installation of cables
- Wallplates feature two QuickPort openings for adding other connectors (QuickPort blanks installed)
- Includes painted screws to match wallplates
- For use with low voltage rings and standard low voltage junction boxes

AEHTK Additional Features

- Accommodates from 5.1 to 7.1 channel surround-sound systems which connect to the A/V Receiver
- Features RCA connectors for connecting subwoofers
- Two extra openings for additional QuickPort connectors (ex. adding an A-BUS® jack or IR port)

AEMRK Additional Features

- Integrated wallplate for connecting Left and Right Audio Speakers (+/- connections), and two extra openings for additional QuickPort connectors (ex. adding a subwoofer or A-BUS jack)

Speaker Wallplates Features

- Allows for simple, solderless connections to any home entertainment speaker system
- Designed to be used with in-wall speaker wiring schemes

Description	Cat. No.
Infrared Emitter	47621-MIE
Infrared Target	47621-CMS
1x9 Bridged Telephone Module, without bracket. Individual boxed unit pack, rack pack carton.	47603-110
Target Output	1 signal lead
Target Input	2 power leads (DC + and -)
Emitter Output	Infrared to control source component
Emitter Input	2 signal leads
Power Supply	12VDC @ 500mA
Emitter Length	6 ft (1.8 m) of Cable
Dimensions	2" H x 1" W (50.8 mm H x 25.4 mm W)

Recessed Devices

For an almost invisible installation behind wall-mounted TVs, entertainment centers, monitors and more, connect with Leviton Recessed Devices. The Recessed Entertainment Box (REB) centralizes AC power and low voltage connection points for audio, video, data and phones. For smaller applications, choose a 2-Gang Recessed Duplex Receptacle (with openings for six installer-selected QuickPort® connectors) or a 1-Gang Recessed Duplex Receptacle.

Flush-mounted on the wall, the Leviton recessed boxes install invisibly behind wall units, wall-mounted flat panel TVs, and signature artwork. They are perfect for homes, apartments, co-ops, condominiums and offices.

Specifications and Features

Recessed One-Gang Duplex Receptacle

- 1-gang recessed receptacle
- Offers a cULus approved, code compliant solution providing two 15A/125VAC NEMA 5-15R power outlets
- Supplies AC power for two components (flat panel TVs and video receiver)
- Fits most common electrical boxes available at Electrical Distributors and Home Centers (electrical box not included)

Recessed Two-Gang Duplex Receptacle with Openings for Six QuickPort Connectors

- Offers a UL approved, code compliant solution providing two 15A/125VAC NEMA 5-15R power outlets and openings for six installer-selected QuickPort connectors or blank inserts (four inserts included)
- Fully compatible with Leviton's QuickPort Snap-In Modules
- Includes plastic electrical box designed for use in new and retrofit construction
- Centralizes device connection points for AC power, audio, video, data and phone connections
- Wallplate built into device

Recessed Entertainment Box

- Manages home theater electronics in a single location
- Ideal for new construction (stud-mounted) and retrofit (wall-mounted) applications
- Low-profile frame provides neat, clean recessed installation
- Optional high-profile cover includes sliding plastic front panel, and channels all wires through the bottom of the REB
- Any combination of line and low voltage products can be configured in the three device openings
- Paintable white ABS molded plastic for structural integrity
