

Decora Smart™ with Wi-Fi Technology

Wi-Fi Product Family

The Decora Smart with Wi-Fi Technology family features in-wall dimmers, a switch, and plug-in modules for appliances and lamps. Control using the free My Leviton app for iOS and Android, no hub required.

Simplify control of the residence – schedule lights and connected loads to turn on/off at specific times or based on sunrise/sunset, easily group smart devices into rooms, and create scenes to activate multiple lights at once.

Integrate with IFTTT, utilize auto-shutoff feature as a countdown timer in closets, hallways and bathrooms; plus engage home vs. away to enact randomization of lighting control, providing a lived-in appearance.

APP CONTROL:

Remote Access from Anywhere, No Hub Required! Use the free “My Leviton” app devices to easily add new devices to your home. Create schedules like “Good Morning” to activate appropriate lighting at preset times. For instance, at 6:30AM every Monday through Friday, turn the bedroom lights to 25% and master bath lights to 50%. As well, Activities can be created so that you can manually set the lighting for “Movie Time” from the app as you begin your movie.

AMAZON ALEXA VOICE CONTROL:

Compatible with all products that support Amazon Alexa providing voice control of the load: “Alexa, dim living room lights to 25%”.

GOOGLE ASSISTANT VOICE CONTROL:

“Ok Google, turn [My Leviton device name] On”. Works with the Google Assistant. Google Home is a voice enabled speaker powered by the Google Assistant. Easily control smart devices around the home.

LOW-WATTAGE LED LOADS:

Engineered to function with extremely sensitive, low-wattage light sources, such as a single LED bulb in a hallway or a strand of holiday lights, ensuring LEDs do not glow when off.

AESTHETICS:

In-wall dimmers and switches boast the new Leviton design with true rocker action, pressing the top to turn on and the bottom to turn off. For the 600W and 1000W dimmers, the dim/brighten bar is conveniently located along the right side of the paddle, ensuring ease of use. Vanishing LEDs to the left of the dimmer paddle show current and target light level with real-time feedback. To meet any decor, color change kits are available in white, ivory, light almond, gray, black, and brown. For the most professional installation, pair the device with an optional Leviton screwless wallplate.

Features and Benefits

- No hub required
- Voice control using Amazon Alexa or Google Assistant
- Integrate with IFTTT to expand control
- Scheduling, remote access, and control via the My Leviton app for iOS and Android
- Control up to 99 devices, 50 schedules, 50 activities, 50 rooms, 50 scenes, and 20 residences within the My Leviton app
- Six color change kits available
- Remotes available for 3-way/multi-location control
- Limited 5-year warranty
