

## WSD02-20

LevNet RF, LED Dimmer without Wireless Capability, 315MHz, EnOcean, Title 24 compliant, ASHRAE 90.1 compliant

Leviton LevNet RF Self-Powered Wireless Solutions are easy to install and maintenance-free, reducing ongoing manual work and material costs while reducing energy. EnOcean technology allows energy harvesting LevNet RF Transmitters to operate indefinitely without the use of batteries. The kinetic motion of a switch actuation, light on a solar cell or temperature differentials in the environment provide power to LevNet RF Transmitters, allowing zero maintenance wireless devices. The LevNet RF line includes a broad range of products that operate in the uncrowded 315MHz radio frequency (RF) band offering greater transmission range (50-150 -Feet) than other wireless technologies with minimal competitive traffic.

### Technical Information

**UPC Code :** 078477532867  
**Country Of Origin :** United States

**Product Features**  
**Color :** White  
**Product Line :** LevNet RF

**Product Type :** LED Dimmer  
**Protocol :** EnOcean Wireless 315 MHz
