

T5820

20A 125V, NEMA 5-20R, 2P, 3W, Tamper-Resistant, Duplex receptacle. Straight blade, Residential grade, Self grounding, Side wired only, Steel strap - BROWN

Leviton's duplex receptacles are designed for a chic appearance, quick installation and durability. The impact-resistant thermoplastic design allows for a long service life and high performance in homes, offices, schools and other settings.

Technical Information

Product Features

Grounding: Self-Grounding

Feature: Tamper-Resistant

Amperage: 20 A

Voltage: 125 VAC

NEMA: 5-20R

Pole: 2

Wire: 3

Termination: Side

Color: Brown

Face Material: Thermoplastic Nylon

Body Material: Thermoplastic Nylon

Standards and Certifications: UL/CSA/NOM

Product Type: Standard

Device Type: Duplex Receptacle

Color:  Brown

UPC Code: 07847745022

Country Of Origin: China

NEMA:
5-20R

Features and Benefits

- Mechanical shutter mechanism prevents access to contacts unless a two-pronged plug is inserted, helping ensure that foreign objects will be locked out
- TR symbol on receptacle face assures they meet the NEC Section 406.11 code requirements
- Ultrasonically welded for additional assembly security
- Base and face made of high impact thermoplastic
- Convenient break-off plaster ears for best flush alignment
- Self-grounding clip staked on, will never fall off
- Easily accessible break-off tabs when split feed wiring is required; allows easy two circuit conversion

TO INSTALL:

WARNING: IF YOU ARE NOT SURE ABOUT ANY PART OF THESE INSTRUCTIONS, CONSULT A QUALIFIED ELECTRICIAN.

FOR SEPARATE FEED

CONVERSION ONLY: Our outlet is provided with a break-off fin located between the two brass terminal screws. If you want to have the top outlet and the bottom outlet controlled by two different hot wires (two circuits), remove the break-off fin before wiring. With needle-nose pliers, bend fin back and forth until it breaks off.

- 1. WARNING:** TO AVOID FIRE, SHOCK, OR DEATH: TURN OFF POWER AT CIRCUIT BREAKER OR FUSE AND TEST THAT THE POWER IS OFF BEFORE WIRING!
2. Remove insulation per strip gauge on device (about 5/8" (1.6 cm)).
3. Connect wires per WIRING DIAGRAM as follows: Loop wires clockwise 3/4 turn around terminal screws. BLACK (hot) wire to BRASS screw. WHITE (neutral) wire to SILVER screw. GREEN or BARE (ground) wire to GREEN screw. Firmly tighten screws over wire loops. Terminal screws accept up to #12 AWG copper or copper clad wire.
4. Mount device using long mounting screws. Attach wallplate (not included).
5. Restore power at circuit breaker or fuse. Installation is complete.

Common feed (Fins intact) Alimentación Común (aletas intactas)

Separate feed (Remove HOT fin only) Alimentación Separada (Sólo quite la aleta FASE)
