

IDC **SELECT®**

Roller Chain Sprockets

Quality Products. Right Price. Right Now.

IDC Select® sprockets are the perfect accompaniment for your IDC Select® chain. Turn after turn, we've got you covered!

- IDC Select® offers a wide range of high quality roller chain sprockets produced in ISO certified facilities to ANSI standards
- Products include plain bore, finished bore, taper and QD® bushing designs
- All sprockets are manufactured using high grade carbon steel with hardened teeth and black oxide finish for long lasting service life
- Finished bore design comes complete with a keyway on the centerline of the sprocket tooth and two setscrews, one over the keyway and one at 90°

Ask your local AD Distributor about their broad inventory of high quality, competitively priced IDC Select® products.
