

EZ-RJ45[®] Connector

APPLICATION

Leviton's EZ-RJ45[™] Connectors and EZ-RJ45 Crimp Tool provide quick, cost-effective UTP wire terminations. The connectors feature openings that allow wires to be inserted and extended out the front providing increased performance, wire sequence verification, and no wasted connectors, crimps, or bad terminations. The connectors exceed Category 5e standards when terminated using Leviton's high-quality EZ-RJ45 Crimp Tool. The crimp tool features a built-in cutter and stripper that crimps and cuts wires in one operation. It accommodates EZ-RJ45 Connectors, and most standard RJ-45 and RJ-11 connectors. This craft-friendly tool features precision ground crimp dies, a full cycle ratcheting mechanism, and steel construction for strength and durability.

STANDARDS COMPLIANCE

Meets all applicable standards: Meets FCC part 68.

PHYSICAL SPECIFICATIONS

Dimensions: 0.59"H x 0.44"W x 0.88"D

Materials: Polycarbonate body.
Phosphor bronze contacts.

WARRANTY INFORMATION

- One-year limited product warranty.

DESIGN CONSIDERATIONS

- Clear housing for wire sequence verification.
- Exceeds Category 5e performance requirements.
- Insert/Extraction life: 1000 cycles.
- Terminates both solid and stranded cable.

For ELECTRONIC Typical Specs see (.TXT) file on disk.

TYPICAL SPECIFICATION

The EZ-RJ45 Connector shall meet FCC part 68 and Category 5e requirements (when used with Leviton's EZ-RJ45 Crimp Tool). It shall be constructed with phosphor bronze contacts and a polycarbonate body. It shall allow UTP wires to extend through the body and out the front to verify wire sequence prior to termination. The manufacturer shall provide a one-year limited product warranty.
