

IDC SELECT®

IDC Select® Chain

Quality Products. Right Price. Right Now.

Rely on IDC Select® to meet your quality, cost and availability needs!

Manufactured using the highest quality raw materials and under rigid quality control standards, ensuring outstanding product performance.

- Available in both ANSI and British standard sizes, with wide waist link plates, solid bushing / solid roller design for high working loads and longer running service life

- Offering includes full range of standard sizes, double pitch, nickel plated, stainless steel, and attachment chains

- IDC Select® stainless steel roller chain is manufactured using 300 series stainless steel for corrosive environments

- Ideal for outdoor service, nickel plated chain has components which are plated prior to assembly to provide uniform protection and prevent corrosion in the joints

- Specialty chain includes leaf, hollow pin, agricultural, citrus, and coupling chains

Ask your local AD Distributor about their broad inventory of high quality, competitively priced IDC Select® products.
