

L7939

Brand Features

Liquid-Tight Grips are woven stainless steel mesh with an anodized aluminum body for corrosion-resistance. They are used to connect liquid-tight flexible metal conduit to electrical enclosures to prevent conduit pullout. Each fitting is supplied with an insulated throat to ensure conductor insulation and protect against damage caused by flexing, heat expansion or contraction. Liquid-Tight Grips are recommended in the wiring of motors and any electrical enclosure where liquid-tight conduit is subject to motion or strain.

Item Description

3 Inch, 45-Degree, Male, Malleable Iron Body, Liquid-Tight Metal Core Conduit, Strain-Relief Grip

Technical Information

Material Specifications

Body Material: Malleable Iron

Grip Material: Stainless Steel

Color / Feature: Insulated

Mechanical Specifications

Fitting Type: Liquid-Tight Metal Core

NPT Size: 3

Fitting Style: 45-Degree

Fitting Gender: Male

Weave: Double

Mesh Length: 10-5/8

Standards and Certifications

Standards and Certifications: UL/CSA

Warranty: 2-Year Limited

Product Features

Device Type: Strain Relief Grip

Representative image shown.

UPC Code: 07847797405

Country Of Origin: Mexico
