

QuickPort® USB Feed-Through Connector

APPLICATION

Leviton's QuickPort USB connector provides a clean transition for USB (Universal Serial Bus) cabling for in-wall wiring.

QuickPort USB feed-through connectors are compatible with QuickPort wallplates and housings. Connectors are manufactured from high quality ABS plastic and are available in white and ivory.

SPECIFICATION

Connectors shall be designed for use in USB applications to provide an interface between compatible devices. Connectors shall meet the requirements for the USB 2.0 standard. Connectors shall be compatible with QuickPort-style wallplates and be available in white and ivory colors.

FEATURES

- Used for USB serial communications
- Meets requirements for USB 2.0 standard
- Snaps easily into QuickPort housing or wallplate
- Female to female connectors for easy installation
- Available in white and ivory
- Cleaner install with in-wall wiring

DESIGN CONSIDERATIONS

- Feed-through connector accepts USB cables with Type A plugs
- CL2 rated cable recommended for in-wall wiring

PHYSICAL SPECIFICATIONS

Dimensions: 0.67" x 0.64" x 1.39"

Materials: ABS Plastic

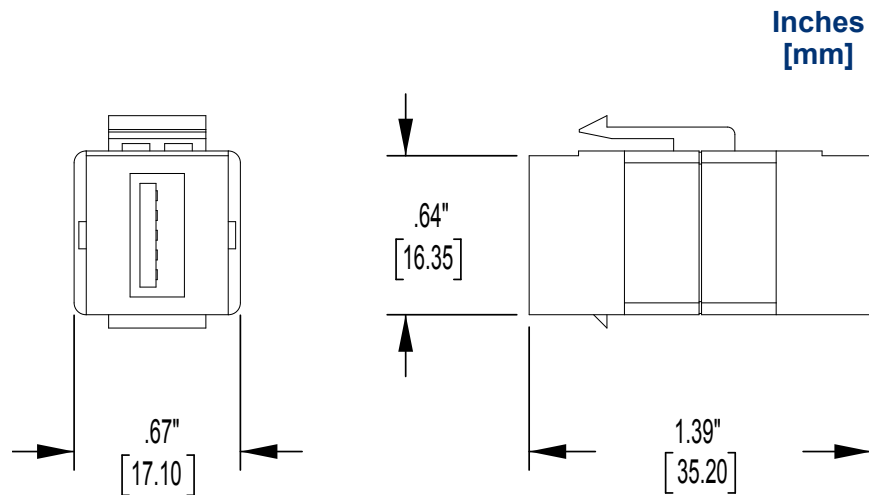

STANDARDS COMPLIANCE

- UL 94-V0
- Meets requirements for USB 2.0 standard
