

Four-Ring Horizontal Cable Managers

APPLICATION

Leviton Four-Ring Horizontal Cable Managers provide high volume cord distribution at the front of industry-standard 19-inch equipment racks and cabinets.

SPECIFICATION

The four-ring cable manager shall provide the capability to organize and contain patch cords on the front of the manager. The front of the manager shall provide four horizontal distribution rings to reduce stress on stored cables and to retain optimal cable geometry. All distribution rings shall have edges with a radius to protect cables from nicks and tears. Managers shall be available in 4RU heights with either 4-inch or 6-inch deep rings. A 4RU metal cover for the rings shall be available as an accessory. Material shall be 16-gauge steel with a black powder-coat finish.

FEATURES

- Distribution rings are radius-edged to protect cable from nicks or wear
- Oversized distribution rings accommodate large quantities of patch cords
- Managers available in 4RU with 4-inch or 6-inch deep rings
- 4RU metal cover sold separately

DESIGN CONSIDERATIONS

- Supports large capacity routing of patch cords
- Place at bottom of distribution frame
- Built-in cable shelf for added support

STANDARDS COMPLIANCE

- ANSI/TIA-568-C
- cULus
- RoHS

PHYSICAL SPECIFICATIONS

Dimensions: See page two

Materials: 16-gauge steel with a black powder-coat finish

COUNTRY OF ORIGIN

Mexico
