

47612-42B

42" Structured Media Enclosure Extender Bracket

The Extender Brackets provide an additional 2" of depth and enhanced ventilation for the Series 280 and 420 Structured Media Enclosures. The Extender Brackets attach between the enclosure and the cover to form a frame which has four 2" deep sheet metal rails with louvers on each side. The increase in depth allows for better cable management and for larger modules within the Structured Media Enclosure.

Technical Information

Dimensional Data

Height: 43.25 Inch

Width: 16.10 Inch

Depth: 2 Inch

Material Specifications

Enclosure Material: Steel

Gauge of Steel: 18 Gauge

Paint Finish: Powder-Coated

Color: White

Product Features

Series: Series 420

Item: 2 Inch Extender Brackets

Height: 43.25 Inch

Width: 16.10 Inch

Depth: 2 Inch

Gauge of Steel: 18 Gauge

Paint Finish: Powder-Coated

Color: White

Warranty: 2-Year Limited

Color: White

UPC Code: 07847716843

Country Of Origin: Mexico

Features and Benefits

- Made of sturdy white powder-coated 18-gauge sheet metal.
- Louvers in the Extender Brackets enhance ventilation for added protection against heat build-up from installed modules.
- Greater depth allows for better cable management and for larger modules, such as audio amplifiers, to be mounted within the Structured Media Enclosure.
