The NIBCO® cast iron gate valve provides full flow with minimal pressure drop. The cast iron gate valve features a Class 125 threaded end connection for easy installation. The iron body bronze mounted (IBBM) valve has a bolted bonnet and non-rising stem. Non-rising stem gate valves are recommended when positive shutoff is required and where space is a premium.

The NIBCO® threaded cast iron gate valve may be used in commercial and industrial applications, including hot and cold water, HVAC, steam,
