

Flexible
Mouth Guard

Flexguard Drinking Fountain

Flexguard protects against mouth contact injury.

Flexguard "surrounds" the water outlet with protection for the mouth as well as the upper and lower teeth of the user.

Unique Flexguard plastic resists degradation from sunlight.

Flexguard Drinking Fountain Retro Fit Kit

Replaces fountains on china fixtures

**PART
NUMBER**
2198

Kit contains:

- #2199 Flexguard Drinking Fountain
- #2195 Lead Free Cartridge
- 1/2" x 3/8" x 3 1/2" Inlet Nipple
- Stainless Steel Flanges
- Rosette – Locknut
- 1-3/4" Cockhole Cover

Pure Flow Drinking Fountain Cartridge

- The simple yet durable design allows thousands of on/off cycles.
- Fits similar style of drinking fountains like our 2199 or 2194.
- This new design replaces the old style 2195 and 2196 cartridges.

To adjust water flow, use the "Serrated Dial Counter". **DO NOT USE A SCREWDRIVER.** Position the dial turning clockwise to decrease water flow. To increase water flow, turn the dial in a counter clockwise direction. Note the position of the notch on the dial (if turned past 180° the water flow will start to decrease)
