Model Number: 0641, 0642-LE

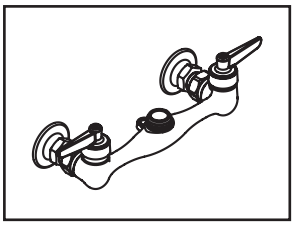

Warnings and Notes:
Check with local plumbing code requirements before installation.
This product should be installed by a local listed plumber.
Do not use plumbers putty on threads.

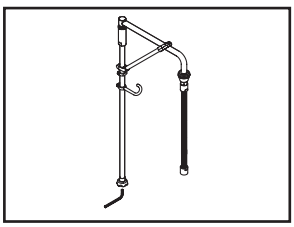

Installation Steps:

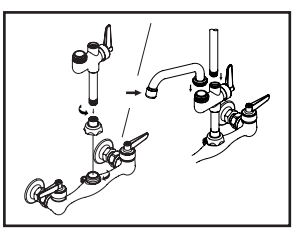

Swivel Pre-Rinse Unit

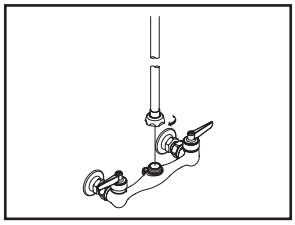

(1a) For existing faucet which is not Central Brass to change to pre-rinse faucet installation: Remove spout from existing faucet.

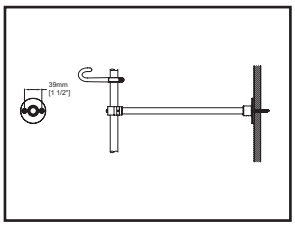

(1b) Choose the proper adapter supplied and attach to faucet body.

(2) For new faucet installation:Please refer to the installation instruction which comes with the faucet you want to install.

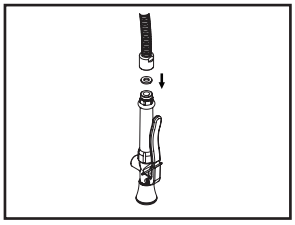

(3a) If there is no add-on faucet, please go to step (4). Remove body adapter from overhead swivel unit with Allen wrench supplied with add-on faucet.

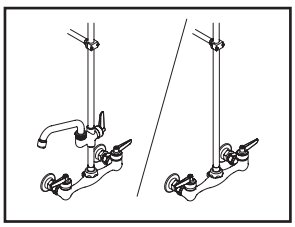

(3b) Attach body adapter to inlet of add-on faucet with Allen wrench. Apply Teflon tape to thread end of overhead swivel unit then thread overhead swivel unit to add-on faucet, attach add-on faucet to faucet body by tightening body adapter with wrench then attach spout to add-on faucet, go to step (5).

(4) Attach overhead swivel pre-rinse assembly to faucet body by tightening body adapter with wrench.

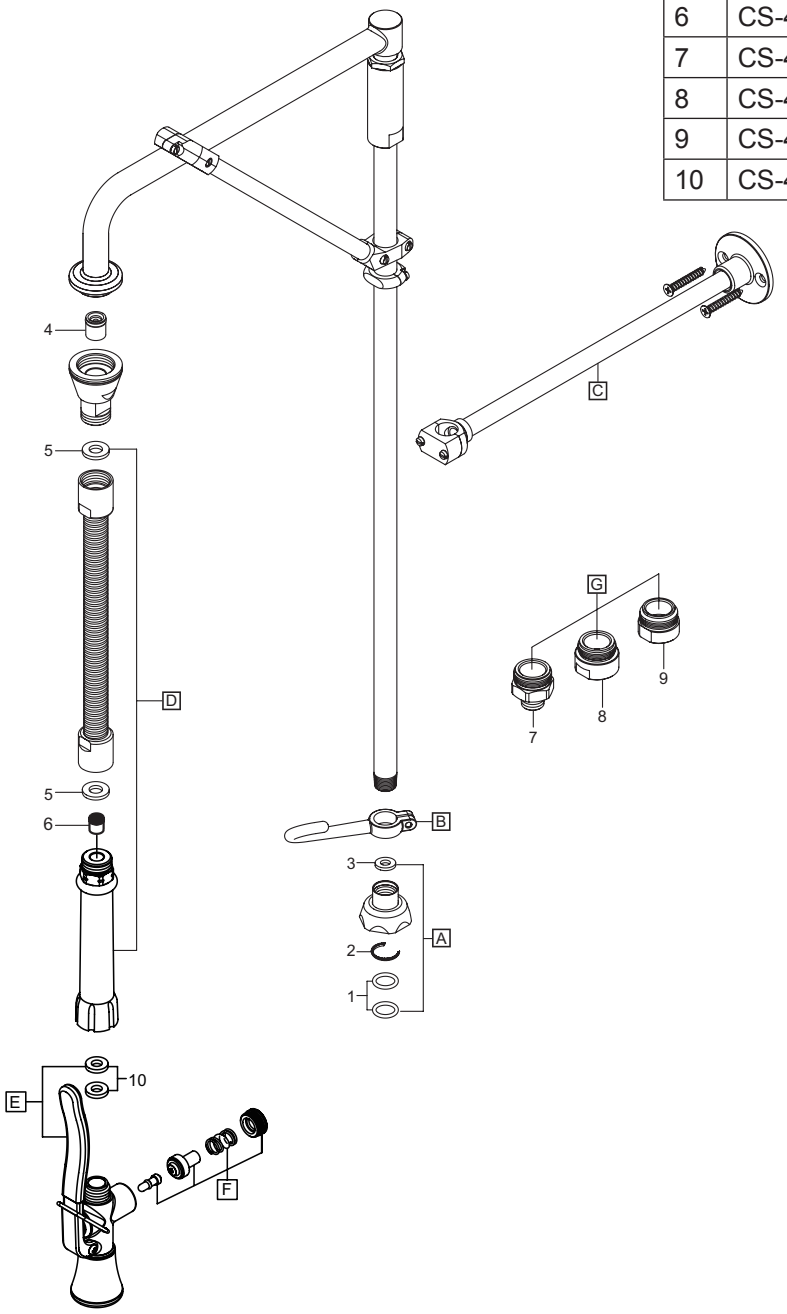

(5) Install 12” adjustable wall bracket and cut the excess support arm to fit in proper distance from wall to overhead swivel unit. Attach finger hook & screw, adjust to proper position.

(6) Make sure hose washer is inside 20” hose connection end and tighten spray valve to 20” hose with wrench.

(7) Turn on water and check any leak on all connections.
