about boss®	48

California Proposition 65 Notice Boss Manufacturing, Inc. warns its California customers that some of the products in this catalogue can expose you to chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov. Boss provides a Proposition 65 warning for any such products prior to purchase on its website at www.bossgloves.com.

Symbols:  Tagged for merchandising  Vending Machine Ready

Boss manufacturing company reserves the right to make modifications to a product's specifications at any time without given notice. For the most current information, please refer to our website at www.bossgloves.com or contact your sales representative.

We routinely third party test our product for stated minimum performance representations. Absolute conformity to standards, however, is not guaranteed due to limiting factors such as laboratory testing tolerances, sample size, fluctuations in manufacturing processes and natural variations occurring in non-synthetic material, including leather.

CUFF STYLES

Adjustable Wrist
(Hook & Loop)

Provides a secure, custom fit and easy removal. commonly found on mechanic and impact styles.

Knit Wrist

Keeps out dirt, debris, and cold air. Provides a secure fit and can be worn under clothing sleeves.

Band Top

Provides light-duty wrist protection and allows air to circulate around the hand. Easy on/off.

Open Cuff
(with self-hem)

Extends below wrist for an open design. Easy on/off. Common on leather drivers and general purpose styles.

Safety Cuff

Adds extended protection to wrist area. Rubberized styles help repel moisture and increase wear-life.

Gauntlet Cuff
(with turtleneck)

An extended safety cuff. Adds protection to wrist and forearm. Common on chemical, hot mill, and leather palm styles.

**WORK HARD.
WEAR BOSS.**

THUMB & CONSTRUCTION STYLES

REVERSIBLE

Generally used for liners and string knit styles, reversible gloves are often seamless for comfort. They can be worn on either hand offering convenience and increased wear-life. The thumb is positioned precisely at the side of the glove.

GUNN CUT

Finger side-seams are located toward the back of the glove adding comfort and increasing wear life. A separate piece of material forms the ring and middle fingers and is sewn into the palm at the finger base.

WING THUMB

Thumb extends to the side and is cut as one piece with the palm, following the natural shape of the hand.

CLUTE CUT

Seamless palm constructed from a continuous piece of material. The finger seams are located toward the palm side of the glove, with the back seams running parallel from finger-crotch to wrist.

STRAIGHT THUMB

Thumb is partially CUT as one piece with THE palm or back and EXTENDS Straight from the WRIST. IDEAL for closed-fist applications.

KEYSTONE THUMB

Thumb is constructed separately and then inset into the palm. This design allows for superior comfort and flexibility, perfect for leather drivers.

GLOVE INFO

Download this info at bossgloves.com/about/documents

LININGS

INSULATED VS. LINED

Lining is directly adhered to the outer glove material, whereas insulation adds an additional layer between the two. Insulation is used primarily for warmth; lining for comfort and/or some warmth.

COATINGS & POLYMERS

WORK HARD.
WEAR BOSS.

Latex Very high elasticity and grip with outstanding temperature resistance. Protects from most water solutions of acids, alkalis, salts and ketones. Should not be used with hydrocarbon and organic solvents such as gasoline and kerosene. Can cause allergic reactions. Great for numerous tasks, including: general maintenance, shipping, receiving, assembly, and material handling.

Neoprene Type of synthetic rubber. Offers good pliability, finger dexterity, high density and tear resistance. protects against hydraulic fluids, gasoline, alcohols, organic acids, and alkalis. Neoprene exhibits good chemical stability, withstands a wide range of temperatures, and will generally outlast natural rubbers.

Nitrile & Foam Nitrile A synthetic version of latex (does not contain latex proteins) that is stronger, allergy-free, and offers a wider range of applications. Stands up well to oils, greases, acids, caustics, and alcohols. Generally not recommended for use with strong oxidizing agents, aromatic solvents, ketones, and acetates. Good choice for the auto, food, and oil industry. Foam nitrile acts as a sponge, **ABSORBING LIQUIDS AND** increasing gripping power.

Polyurethane (PU) Offers great breathability and grip without being sticky. PU foam can become discolored when exposed to light and has poor resistance to hot water.

Pvc (Polyvinyl Chloride) protects against liquids & some oils, with limited chemical resistance. Superior grip in oily conditions and stays flexible in low temperatures. Frequently worn by: farmers, agriculturists, construction workers, and commercial fishermen.

Disposables: Due to the dipping process used in making disposable gloves, it must be noted that the mil of these gloves may vary slightly from the stated description.

LEATHER TYPES & GRADES

Cowhide Tough and durable, cowhide is the Most common and most versatile leather. offered in grain or split varieties, grain cowhide is generally higher quality and lasts longer than split cowhide.

Deerskin Extremely soft and supple, deerskin provides the best feel, fit, and dexterity. Naturally resistant to cold and dries soft and flexible after being wet. Best for light duty jobs. Offered in both grain and reverse-grain varieties.

Pigskin Tough and naturally moisture resistant, pigskin is breathable and feels soft even after getting wet. Offered in both grain and split varieties, Split pigskin feels softer while wearing and boasts a slightly rougher grip.

Goatskin Best abrasion and tensile strength for its weight while remaining soft & supple. Highest natural lanolin content of all leathers. Offered in grain leather only.

Sheepskin as a Natural insulator, sheepskin draws perspiration away from the wearer and into the fibers. Sheepskin can trap 30-36% of its own weight in moisture and Dries soft and flexible. Offered in grain leather only.

SPLITTING THE HIDE

Grain and split leathers are made by separating the hide into two pieces. The top "grain" leather is smooth, while the bottom "split" leather (or suede) is fibrous.

GRAIN LEATHER
SPLIT LEATHER

BOSS' LEATHER GRADES

WEAR BOSS.**

SIZE CHART

Step 1: measure.
find the circumference of your hand at the knuckles.

Step 2: match.
match your finding to the measurement on the chart.

Your hand Measurement →
Your glove Size →

6" - 7"	7" - 8"	8" - 9"	9" - 10"	10" - 11"	11" - 12"	12" - 13"

GLOVE CARE & MAINTENANCE

Properly caring for your gloves is essential to maintaining quality hand protection. Effective glove care will provide longer wear and lessen the risk of hand injury.

CLEANING Most leather gloves will perform better and last longer when they are cleaned regularly. Certain glove materials launder better than others. Consult your sales representative to help select the styles that are right for you or your customers.

INSPECTION it is recommended that inspections be made daily to assure all gloves are free of damage, both inside and out.

STORAGE Gloves should be stored in a well ventilated area at room temperature, away from direct sunlight.

RAINWEAR // BRING ON THE RAIN

*CERTIFIED TESTS HAVE BEEN CONDUCTED ON ALL WATERPROOF AND ANSI/ISEA STYLES, AND RESULTS ARE AVAILABLE FROM YOUR SALES REPRESENTATIVE UPON REQUEST.

#3SS7000 
SIZES: M-3X

WATERPROOF SOFTSHELL RAIN JACKET

- 100% POLYESTER 3 LAYER LAMINATED SOFTSHELL JACKET
- WATERPROOF HIGH-VIS. YELLOW WITH REFLECTIVE STRIPING
- 2 LOWER POCKETS WITH ZIPPERS
- 1 CHEST POCKET WITH ZIPPER
- ADJUSTABLE CUFFS
- ZIPPER CLOSURE
- ANSI/ISEA 107-2015 TYPE P, CLASS 2**

#3NR6000 
SIZES: M-3X

LINED WATERPROOF RAIN JACKET

- 100% POLYESTER 300D OXFORD PU COATED
- WATERPROOF HIGH-VIS. YELLOW WITH REFLECTIVE STRIPING
- 100% POLYESTER MESH LINING
- REMOVABLE HOOD
- FRONT ZIPPER & SNAP CLOSURE
- TWO LOWER POCKETS WITH SNAPS
- CELL PHONE/RADIO POCKET
- ANSI/ISEA 107-2015 TYPE P, CLASS 2**

#3NR5000 
SIZES: M-3X

UNLINED WATERPROOF RAIN JACKET

- 100% POLYESTER 150D OXFORD PU COATED
- WATERPROOF HIGH-VIS. YELLOW WITH REFLECTIVE STRIPING
- UNLINED WITH BACK OPENING FOR VENTILATION
- FRONT ZIPPER & SNAP CLOSURE
- STOW-AWAY/REMOVABLE HOOD
- FULLY TAPED SEAMS
- 2 OUTER PATCH POCKETS
- ANSI/ISEA 107-2015 TYPE P, CLASS 2**

#3NR3000 
SIZES: M-3X

UNLINED WATERPROOF RAIN PANT

- 100% POLYESTER 300D OXFORD PU COATED
- WATERPROOF HIGH-VIS. YELLOW WITH REFLECTIVE STRIPING
- UNLINED
- WATERPROOF TAPED SEAMS
- ELASTIC WAIST WITH DRAWSTRINGS
- FRONT POCKET ACCESS
- ANKLE ZIPPER & TAKE-UP SNAPS
- ANSI/ISEA 107-2015 SUPPLEMENTAL CLASS E

#3NR4001 
SIZES: M-3X

WATERPROOF BOMBER JACKET

- 100% POLYESTER 300D OXFORD PU COATED
- WATERPROOF HIGH-VIS. YELLOW WITH REFLECTIVE STRIPING
- SEALED SEAMS
- REMOVABLE 100% POLYESTER ANTI-PILLING POLAR FLEECE LINER
- 4"X 6" LEFT BREAST POCKET WITH 3.5" X 4.5" CLEAR POCKET FOR ID CARD OR BADGE
- TWO LOWER ZIPPER POCKETS
- REMOVABLE HOOD
- ANSI/ISEA 107-2015 TYPE P, CLASS 2**

#3NR4000 
SIZES: M-3X

INSULATED WATERPROOF RAIN PANT

- 100% POLYESTER 300D OXFORD PU COATED
- WATERPROOF HIGH-VIS. YELLOW WITH REFLECTIVE STRIPING
- LINED & INSULATED
- ELASTIC WAIST WITH DRAWSTRING
- TAKE-UP SNAPS
- WATERPROOF TAPED SEAMS
- FRONT POCKET ACCESS
- ANSI/ISEA 107-2015 SUPPLEMENTAL CLASS E

**IF A SUPPLEMENTAL CLASS E PANT IS WORN WITH A PERFORMANCE CLASS 2 OR 3 JACKET, THE ENSEMBLE BECOMES PERFORMANCE CLASS 3.

CHEMICAL RESISTANCE CHART

THE CHEMICAL RESISTANCE CHART IS PROVIDED AS A GUIDE FOR QUALIFIED PROFESSIONALS WHO RECOMMEND, SELECT, SPECIFY, OR OTHERWISE DETERMINE THE SUITABILITY OF PROTECTIVE PRODUCTS FOR WORKER SAFETY. THIS CHART IS TO BE USED PRIMARILY AS A STARTING POINT AND IS PROVIDED FOR **ADVISORY PURPOSES ONLY**. THE SUITABILITY OF A PRODUCT FOR A SPECIFIC APPLICATION MUST BE DETERMINED & TESTED BY THE PURCHASER.

BOSS MANUFACTURING COMPANY ASSUMES NO RESPONSIBILITY FOR THE SUITABILITY OF A USER'S PRODUCT SELECTION FOR A SPECIFIC APPLICATION.

pricing A \$25.00 service charge will be added to orders under \$250.00. Sizes may be combined for quantity discounts on items with the same product number.
imprinting Minimum order requirements. Please contact your Boss sales representative for details and pricing.

HISTORY

Rendering of The Perkins Boss Husking Pin, 1889.

In 1893, the Perkins Husker Company was reorganized and emerged as Boss Manufacturing Company. From 1895-1900, in addition to corn husking pins, the company manufactured force pumps and end gates for farmers' wagons. Boss also conceived the idea of manufacturing work gloves by taking note of farmers' needs in the Kewanee area. In the early 1890s it was common practice for farmers' wives to purchase cloth goods and make work mittens for their husbands.

Boss' "FLXO" chore glove being made in Kewanee, IL c. 1940.

WE ARE BOSS.®

In 1887, a farmer living in Kewanee, Illinois invented a unique corn-husking tool. He named that tool, known today as a husking pin, the Perkins Boss Husker.

Boss workers pose with a load of 37,650 gloves outside a factory c.1915.

In the early 1900s, Boss was sometimes referred to as the "U.S. Steel" of the cotton work glove and mitten industry. As early as 1900 retailers asked to have their name printed on husking mittens, which in turn were sold for five cents a pair.

← WATCH OUR STORY
BOSS EMPLOYEES MAKING GLOVES, c. 1970s.

In 1901, the Kewanee manufacturing plant was unable to produce product fast enough for the demand, so branch plants were established in Galesburg, Illinois and New York City. The Boss story from that point on is one of continued growth and sustained success as a leader in the glove industry.

TODAY

OVER 125 YEARS OF EXCELLENCE.

BUILDING GREAT THINGS TAKES TRUST. TRUST IN TALENT. TRUST IN SKILLS. TRUST IN TOOLS. SINCE 1893, INDUSTRIAL WORKERS, RETAILERS, HOBBYISTS, AND DISTRIBUTORS HAVE TRUSTED BOSS MANUFACTURING TO DELIVER THE SAFETY WEAR AND SUPPORT THEY NEED FOR EVERY SITUATION.

Kewanee, IL employees pose outside Boss Manufacturing corporate office, 2013.

Today, Boss gloves are being shipped all over the world. They even went to the South Pole with Admiral Byrd! Throughout all of our changes, Boss Manufacturing hasn't forgotten it's roots-- even after 120 years of growth. Although we donated our original office building to Kewanee's First Baptist Church, our company is still headquartered in Kewanee, IL with distribution centers and sales personnel throughout the United States and Canada.

GREAT THINGS START WITH GREAT GEAR.

After all of this time, Boss continues to respond to the urgent needs of our customers. We keep up with emerging technologies so that we can continue to offer innovative designs for changing work environments. As the oldest glove company in the U.S., we've developed the infrastructure, inventory, and relationships we need to ensure our customers and partners have everything they need to succeed. Boss markets and distributes a complete line of work, sport, and garden gloves as well as boots, rainwear, safety vests, and other personal safety products. These products are sold through our consumer and industrial divisions to retailers, distributors, and wholesalers worldwide.
