

Ratcheting Hydrant Wrenches

Ratcheting Hydrant Wrenches feature a long handle and an adjustable, snug-fitting socket for tackling pentagon or square nuts.

- Make loosening or tightening easier as the long handles provide good leverage.
- Sockets adjust easily with the thumb screw feature.
- Ratchet action makes these wrenches faster to operate than non-ratchet models during emergencies or for general maintenance like flushing.
- HWR needs just 14° swing which is excellent for use in tight spaces.

Catalog No.	Item Code	Length		Weight		Capacity	
		in	mm	lbs	kg	pentagon	square
HWR	02395	22	554	6.1	2.8	1-7/8" (47 mm)	1-1/4" (32 mm)
HWFR	02397	18	457	4.4	2	1-3/4" (42 mm)	1-1/4" (32 mm)
