

RSRS Series Straight-Body Steel Cord Grips

The Tuff-Seal RSRS series of cord grips features a body and compression nut made of plated steel for added strength and durability, enhanced resistance to rust and a better physical appearance. These grips can be ordered with or without wire mesh attachments and accommodate 3/8" through 1" conduit. The design of the nut in these cord grips is a hexagon for part of the length and round with a knurl for the remainder of the length.

RSRS Steel & RSSS Stainless Steel Cord Grips Only Dimension Table

RSSS Series Stainless Steel Cord Grips

The Tuff-Seal RSSS series of cord grips features a body and compression nut made of stainless steel which provides the highest levels of durability in severely corrosive environments filled with saltwater, acids or chemicals. These grips can be ordered with or without wire mesh attachments and accommodate 3/8" through 3/4" conduit.
