- Ultra-bright CREE XB-D LED for high illumination indoors and out.

PLF1D

- Shock resistant with high efficiency circuit, providing maximum light output throughout entire battery life.
- Product is CE standard with a life expectancy of 100,000 hours.

PLF2

Hi-Power Zoom Led Flashlight

- Light is tightly concealed inside the flashlight body,

PLF2D

- providing greater strength and less chance of breakage.
- 450 lumen provides 2 hours of maximum brightness indoors and out.
- SOS and warning signals, providing you and your family with extra security.

PLFR3

Rechargeable Led Flashlight

- Easy to hold with secure comfortable grip.

PLFR3D

- Easily connects to USB charger. Water resistant for harsh weather environments.
- 700 lumens for extreme brightness.
- Includes end hook for secure carry within your tool bag or belt.

Swyvel Flashlight

- USB Rechargeable
- Anodized aircraft-grade aluminum; water (IPX4) and impact-resistant
- 90° swivel head
- Magnetic base
- Smart Power Control
- Removable steel belt/pocket clip
- Battery charging indicator

OMNI2K Directional Work Light

- USB-C rechargeable
- 4,000mAh power bank
- Rotating magnetic handles
- Rotating C•O•B panels
- Water and impact-resistant
- Non-slip rubber coating
- Battery charging indicator

K

TOGGLE SWITCHES

Versatile toggle switch family with multiple position configurations.

- Available in single or double pole.
- Perfect for industrial equipment or emergency lighting.
- 1/2" mounting hole required.
- Specifications: 10 A, 277 V AC/20 A, 125 V AC; 75°C max. temp rating.
- Standard nut size (15/32"-32").

SMARTGUARD®

TEMPORARY ELECTRICAL PANEL COVER

UL STANDARD 514C (Dielectric Strength & Flammability)
CERTIFIED ASTM STANDARD D1790 & D638 (Impact & Tensile Strength)

These clear panel covers provide easy views of the Breaker Box interior allowing you to see the condition and position of breakers and what circuits have been pulled or need to be pulled. A proven standard for protecting Load Centers and Breaker Box openings, these are the only covers that meet OSHA Standards for Temporary Use and UL514C for die electric strength and fire rating. Also non-conductive, these panel covers meet ASTM Standards for tensile and impact strength as well. All four sides come with magnets so you get a secure, long lasting holding power. They come completely equipped with the ANSI standard warning symbols and alert labels, as well as, the UL514C label and #3 PVC Recyclable label. Standard for all 20" wide panels, covers are provided specifically to fit your load centers outer dimension opening panel height of any specified size. We also make flat panel covers from 1/8 Clear PVC for special needs or for critical power situations.

FLOOR OPENING COVERS

Floor opening covers come in a variety of shapes and sizes. Our floor opening drive covers provide rollover protection from man lifts, forklifts, and carts. These covers are tough and will last the tests of time. The closed cell foam fire resistant gasket provides a watertight seal. Both the type 1 PVC fire rated base plate and fire resistant gasket add a strong fire protection layer from floors below.

Our floor opening drive covers are available with or without the gasket.

AMERICAN FLAG

NYL-GLO® 100% ALL WEATHER NYLON

- Nyl-Glo® is 200-denier, 100% nylon fabric, specially treated to resist the damaging ultraviolet rays and fading effects of weather.

- Individual stripes of red and white are sewn together with twin rows of heavy duty stitching.

- State Flags
- Military Flags
- Fun Flags

- College Flags
- Historical Flags
- Country Flags

- Each star is densely filled with brilliant white embroidery yarn that shines brightly against the rich blue background.
