Choose America

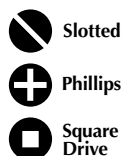

Choosing to buy American-made products has benefits beyond helping your fellow countrymen. When we buy products from foreign companies we may support some jobs here in the United States, but we lose in the long run since the profits are siphoned out of the country. If more Americans buy American made products, your family, neighborhoods, and the Nation will benefit. The reason why we all benefit from this, is that large numbers of Americans are losing their jobs to other countries or are being paid less as a result of this. Being able to provide American made screws, made by Avanti, our affiliate in Bristol, CT, all of us here at Metallics believe that we are helping to keep America moving in a forward direction. Thank you for supporting Metallics and America.

AMERICA'S SOURCE FOR PREMIER AND INNOVATIVE FASTENERS & ANCHORS

HELPFUL HINTS FROM METALLICS

Selecting the proper fastener for each application is important in obtaining maximum performance.

Point Length — Length of the unthreaded point — must be greater than total thickness of material to be drilled. In jobs involving more than total thickness of material, calculation of total thickness must also include any spaces between thicknesses.

Driving Technique — Keep the driving tool perpendicular to working surface.

Drivers — Fasteners should be installed with 2500 RPM high-torque drivers equipped with a positive clutch. For wood to steel applications, drivers operating at 1700-2000 RPM should be used.

MSWP120	12694	120 pcs - Plastic Box of Assorted Steel Galvanized Washers containing a total of 120 pieces. 20 each of #6, #8-10, #12, 1/4", 5/16", and 3/8"	.53	1/25	20.20/e kit

OTHER SIZES AND QUANTITIES AVAILABLE BY REQUEST

MASTER PLUG® SYSTEM

THREADED INSERT-FASTENING, SEALING, CUSHIONING SYSTEM

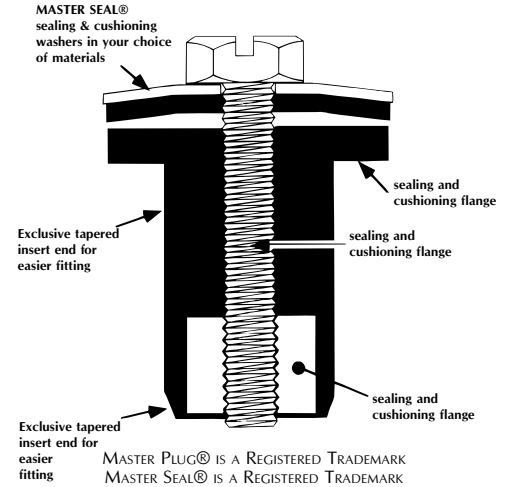

ADAPTABILITY

- Fastens blind holes and closed-end holes
- Cushions and seals similar and non-similar materials
- Absorbs vibration and seals both sides
- Tapered design enhances fastening installation
- Won't crack with ozone and ultraviolet expos

VERSATILITY

- Removable and re-insertable
- Installs with conventional tools
- Works as a system with MASTER SEAL® washers
- Flange thickness always in proportion to size
- Grip range covers all dimensions

Hilo threads for faster application

Silver color to match conduit, strap and concrete

QUADRIVE CONCRETE SCREW ANCHORS

"STOP THE SNAPPING"

It's a Screw and an Anchor

A coating is applied after heat-treating to provide anti-corrosion protection. The coating is a RoHS compliant mechanical zinc coating that offers 2000 hours to 15% red rust corrosion in salt spray testing performed to ASTM B117 specifications.

Metallics offers our Distributor/Contractor users an alternative to the blue color of standard concrete screws. Silver color is cosmetically appealing when used with zinc plated or stainless steel brackets, electrical fixtures or conduit.

WITH DRILL BIT. 2000 HOURS TO 15% RED RUST CORROSION

MASTER ANCHOR™

THE WORLD'S STRONGEST FASTENER™

MASTER ANCHOR™:

- **Never loosens!**
- Installs in all hollow walls - in just minutes!
- **Rated up to 300 lbs. in drywall.**
- Handles vector forces 360°.
- Objects can be easily removed or replaced.

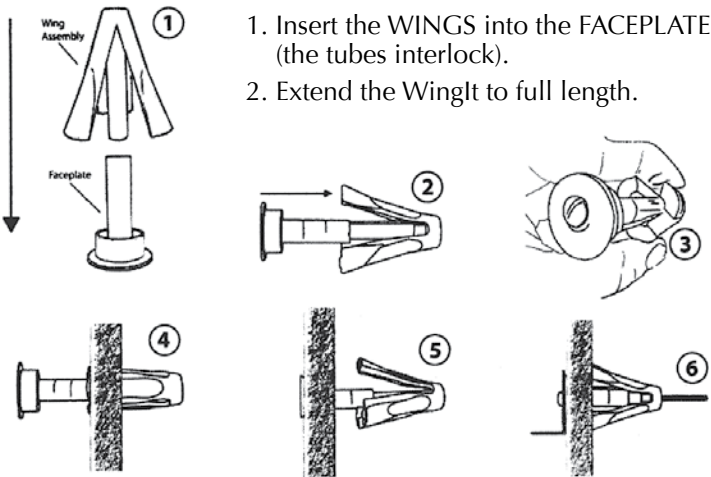

Carbide Tipped Apache 200™ Drill Bit:

- Industrial Carbide Rated at 200 Holes in Ceramic Wall Tile.
- Designed for Ceramic, Marble and Plaster.
- **Guaranteed to NEVER Walk.**
- Fits standard and cordless drills.

Install Instructions:

Surface Preparation - Determine where to install - Drill 3/4" hole using the APACHE200. The standard MASTER Anchor is used in wall substrates up to 1.3" thick.

DRILL IT. INSTALL IT. MOUNT IT.

Fire Retardant, Structural Plastic & S/S Construction

3. Compress and insert the WINGS into the holes.
4. WINGS should be FLUSH with the wall surface.
5. Pop WingIt through the hole by pushing on the Faceplate.
6. Using the enclosed 3.5" Stainless Steel Screw, attach the object to the WingIt.

Note: For individual mounting points where the object will be subject to considerable torque (rotational forces) - use at least TWO MASTER Anchors.

NOTE: Strength and stability are greatly affected by projection off the wall surface. WingIts are designed to be used in vertical walls only - DO NOT USE IN CEILINGS!

RELEASABLE CABLE TIES

- **Two Designs** – Extended Pawl Ties released with thumbnail. Tab ties released by pushing in the tab.
- **Repositionable** – Ideal for temporary bundling applications that need easy access to add or remove bundled items, or any application that may require customization for future changes.
- **Reusable** – One piece design and low insertion force provide consistent performance after repeated use.
- **Save Money** – Lower inventory and eliminate waste from ties that must be cut and discarded.
- **Easy to use** – Press tab, release, and reuse. Bent tip allows for quick and easy installation or removal.

DUAL LOOP CABLE TIES

Designed to mount and wrap two separate bundles of hoses, wires, cables, or tubing, in parallel to protect them from abrasion or chafing.

- Increased flexibility and toughness
- Impact resistant material prevents cracking and breaking due to repeated high impacts and vibration
- 150 lb. tensile strength for heavy duty applications
- Releasable for increased serviceability
- Heat stabilized to provide high operating temperatures of 230°F
- Mounting hole provides option of securing bundles in heavy duty equipment
- Weather resistant UV Black for outdoor use and sun protection

SILVERHAWK™ TOP BEAM CLAMP

STEEL ZINC

SilverHawk Top Beam Clamps are our strongest, lightweight top beam clamps. Made from cold rolled steel with a zinc plated finish, they are rust and corrosion resistant. These super strong SilverHawk clamps exceed UL and FM testing requirements. Zinc finish aesthetically works with plated rods and plated swivel ring hangers.

Tested by industry professionals, SilverHawk installation is quick and easy. Their unique counter balance design makes it easy to spin them onto threaded rods so installation goes faster. The open back shape provides visual verification during installation.

- Supports 3/8 rod
- 90° angle fits I-beam or T-bar up to 3/4 thick.
- Extruded tap holes meet FM Approvals requirements.
- Accommodates retaining strap usage.
- Metric also available by request.

MASTER FLASH®

COMPLETE ROOF JACK KIT

Everything in ONE KIT!

- The Master Flash® Roof Jack
- UV Cable Tie
- Metalics Special Sealant
- 10 x 1 Indented Hex Self-Drilling Screws
- Easy Installation Instructions

Universal Pipe Flashing System...

- Weather Resistant
- Adapts to Many Roof Surfaces
- Easily Installed
- Uniform Plumbing Code (UPC®) Listed

Numerous Applications...

- Plumbing, Heating/Air Conditioning Equipment
- Electrical Service Entrances
- TV Aerials
- Masts, Vents or Pipes Through Decks or Bulkheads

20 gm

INSTANT SUPERGLUE

Fast setting, low to medium viscosity cyanoacrylate adhesive for use on all types of substrates. Ideal for filling small gaps.

Typical Bonding applications:

- Circuit board wires
- Ceramic, fabric, metal and leather bonding
- Molded parts such as automotive weather stripping, wiper blades
- Speaker cones
- Equipment identification tags
- Control panel switches
- Rubber pads for equipment base or legs

THREAD SEALANTS

- Seals and secures metal pipes and fittings
- Fills the space between threaded metal parts
- Prevents leakage caused by tape shredding, vibration loosening, solvent evaporation, or damaged threads
- Prevents corrosion and galling threads
- Low and high pressure applications
- Seals to burst strength of most piping systems
- For stainless steel and other inert metal threaded pipes and fittings
- Facilitates assembly
- Service removable
- Gasoline resistant

PACKED WITH PRIDE

As a part of our Quality Program, each shipment and each single carton leaving our facilities has a label affixed to it, indicating the person who packed the order.

HARD BODY PACKING

When you, the distributor, compare price and performance to other fastener suppliers, please compare our Hard Body Packing to the way they ship products.

We do it the right way—the quality way—the Metallics way.

AVANTI SCREW MANUFACTURING

Metallics Avanti Screw Manufacturing Facility in Bristol, Connecticut

A Modern Up-to-date Roll Threading Machine.

This is the Heading Line.

America's Source For Premier & Innovative Fasteners.

None of our competitors selling to the Electrical, Plumbing and HVAC Distribution trade can claim they manufacture screws.

There is no doubt: We know the American fastener market and are ahead of our competitors. Our Avanti Screw, Inc., fastener manufacturing facility in Bristol, CT, provides you an American fastener company who makes a portion of its product, sold through electrical, plumbing and HVAC distributors.

MANUFACTURING CAPABILITIES

Diameter range #2 thru 5/16" / 1.5mm thru 8mm
Length range 1/8" thru 3" / 3.5mm thru 75mm
Materials: Steel, Brass, Stainless, Aluminum, Bronze.

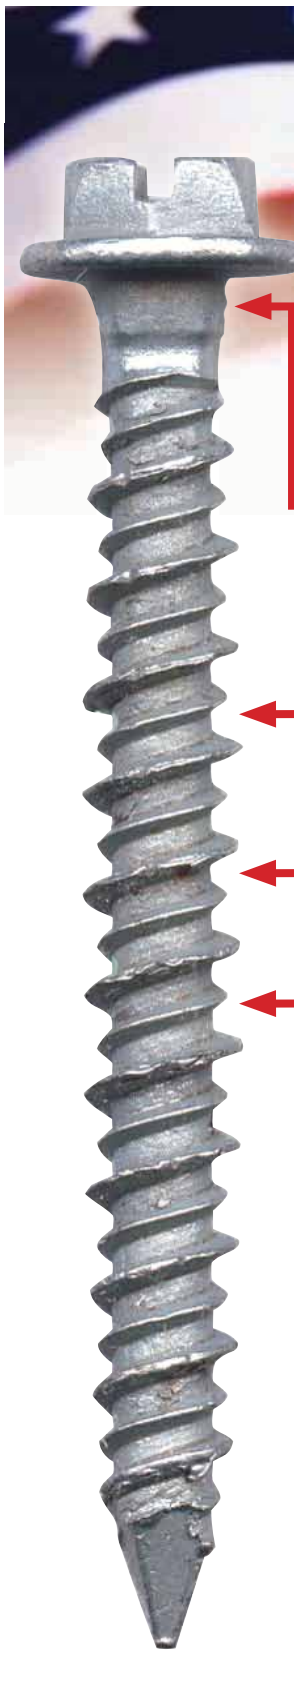

Screw Incorporated
Fasteners made in America

A METALLICS AFFILIATE

QUADRIE CONCRETE SCREW ANCHORS

"STOP THE SNAPPING"

It's a Screw and an Anchor

A coating is applied after heat-treating to provide anti-corrosion protection. The coating is a RoHS compliant mechanical zinc coating that offers 2000 hours to 15% red rust corrosion in salt spray testing performed to ASTM B117 specifications.

Metallics offers our Distributor/Contractor users an alternative to the blue color of standard concrete screws. Silver color is cosmetically appealing when used with zinc plated or stainless steel brackets, electrical fixtures or conduit.

The QuaDrive

Square Drive + Hex + Slotted + Phillips = QuaDrive

America's Newest Drive – Designed, Developed and Manufactured Only By Metallics/Avanti Screw

We believe Metallics has the largest ratio of American made to foreign produced product of any other American fastener company.

Metallics

An **AMERICAN** Source For Premier and Innovative Fasteners and Anchors

Large fillet under head to fit $\frac{3}{16}$ " and $\frac{1}{4}$ " holes provides greater driving strength

Fluted, interrupted threads aid tapping into masonry products

Hilo threads for faster application

Silver color to match conduit, strap and concrete

We will be glad to send a sample bag of 10 pieces to our Distributors for their customer trials.
Please specify size!
