# High Density Polyethylene (HDPE) Couplings

## **Applications:**

· designed for mechanically joining high density polyethylene pipe and fittings

### Features:

- ductile iron body with rust inhibiting paint
- uses four bolts to drive the sharply machined housing teeth into the outside of the pipe
- Comparable to: Grinnell's #9095

Lite<sup>®</sup> Couplings - Stainless Steel

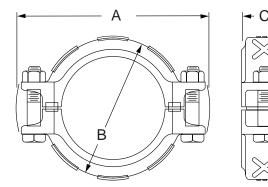

# **Applications:**

designed for use on rigid, locked-in pipe connections

## Features:

- 316 cast stainless steel body, nuts and bolts
- certified to ANSI/NSF 61
- ideal for corrosive environments
- use of suitable anti-galling thread compound is recommended

 Comparable to: Grinnell's #7400 SS
