300	20820	1/4" (6 mm) Non-metallic Cable Strap for 14/2 and 12/2 flat NM cable and UF cable	100/bag	5000/case

Distributed by

Arlington's #300 non-metallic cable strap offers the easy way to attach flat NM cable to concrete block. You can use it on a wood stud too!

Easier to use than a staple or foldover strap. Simply position the cable and nail the 300 strap onto the surface.

- Secure positioning, fastening or routing of 14/2 and 12/2 flat NM or UF cable

Visit our website and check out our entire line of cable connectors, supports, standoffs, spacers and straps
