

see what Delta can do™

HOSPITALITY SOLUTIONS 2019|2020

We make the difference for hospitality professionals.

We offer our innovations in a breadth of styles and finishes that can realize the vision of any design team and fit the look of any property. Our product warranties and sales force provide support through and beyond construction. In the end, your guests will receive a distinctive experience that they'll tell others about—and come back for.

For more information about Delta® products or our project pricing, please email us at Hospitality@DeltaFaucet.com

Products admired for their design—inside and out.

We don't do it for the recognition, but our list of industry accolades keeps getting longer. Our products and technologies have earned: Gold, Platinum and Silver ADEX Awards from the Design Journal Awards for Design Excellence; multiple Stevie American Business Awards; GeekWrapped® Award; *Kitchen & Bath Business* Product Innovator Award; and an R&D 100 Award.

WaterSense® Sustained Excellence Award.

Delta Faucet Company is proud to be one of the EPA's 2011, 2013 and 2014 WaterSense® Partners of the Year and a Sustained Excellence Award Winner for 2015, 2016, 2017 and 2018. This notably consistent recognition demonstrates our ongoing commitment to developing designs and technologies which pair convenient water efficiency with maximum performance.

Since 2012, 100% of all new Delta® bathroom faucet designs have been built to meet or exceed WaterSense standards set by the EPA. Today, more than 80% of Delta bath suites feature shower heads, hand showers and faucets that meet WaterSense requirements.

WaterSense® and the WaterSense logo are registered trademarks of the U.S. Environmental Protection Agency.

GeekWrapped® is a registered trademark of West Winds LLC.

Our resources for making you look good.

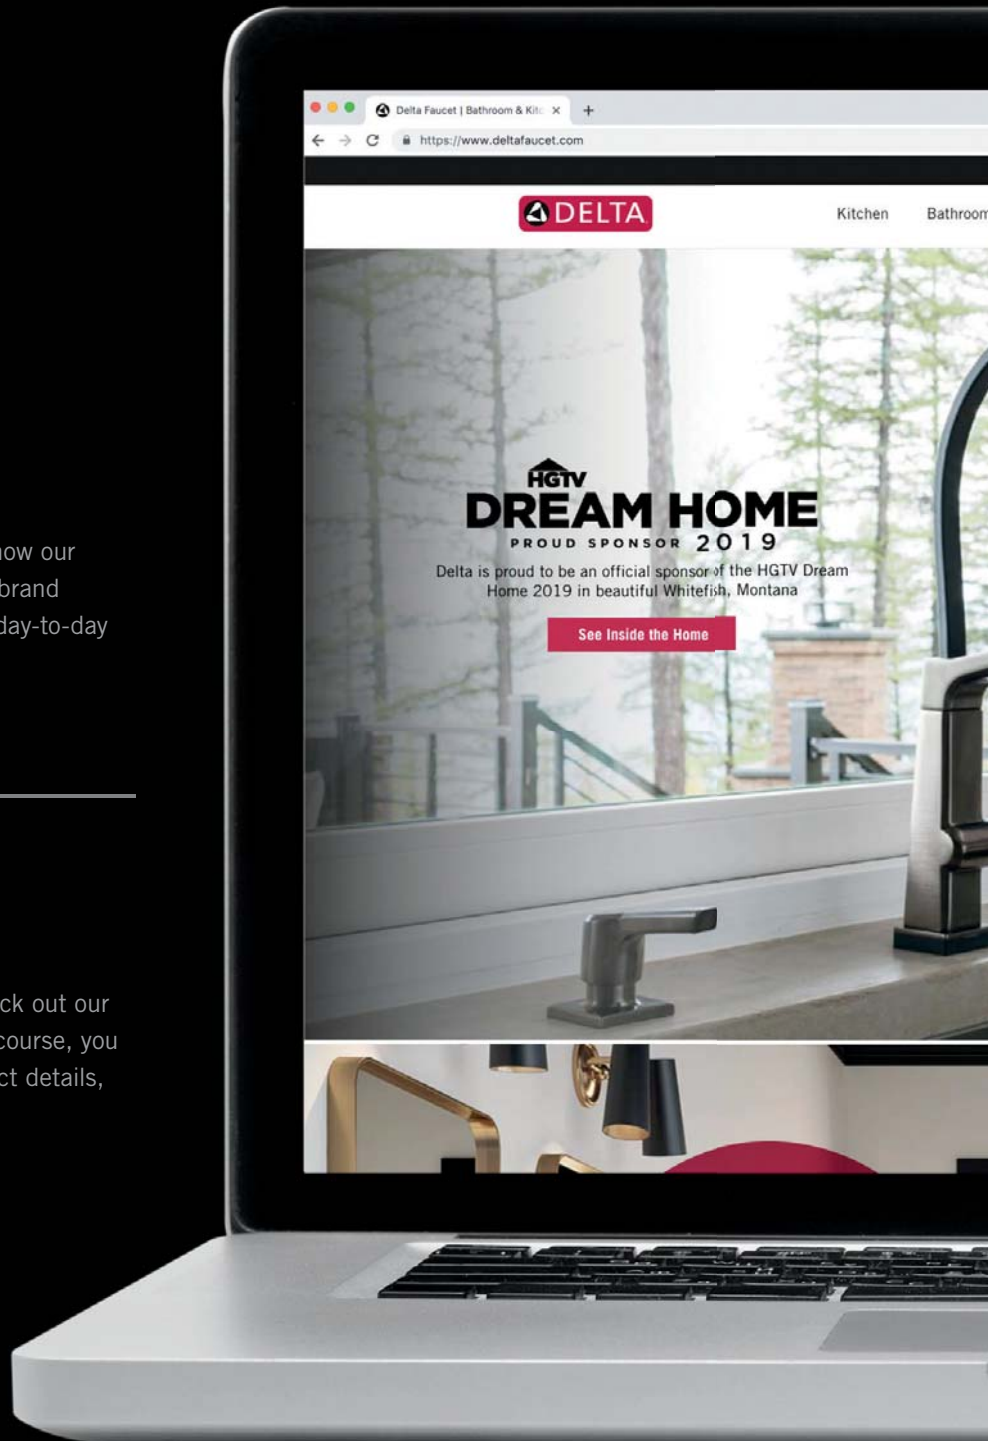

As proud as we are of our many products, we know our partnership is equally as important. The Delta® brand continually builds our resources to answer your day-to-day needs—and support your long-term success.

deltafaucet.com

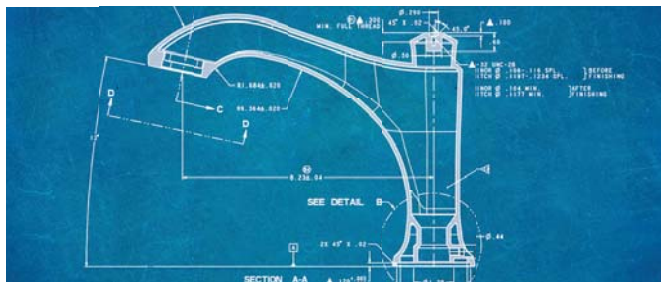

It's the go-to destination for quick answers. Check out our website for product updates and news. And, of course, you can do your research. Browse a variety of product details, select finishes, and stay in the know.

specselect.com

We've made sourcing exactly what you need—fast and simple at specselect.com. This comprehensive online catalog does more than give a detailed look at our commercial product offerings. It's designed to dynamically create model-specific spec sheets and guide you to the valid choices for your project.

Visit the For Professionals section for these resources and more.

Product Design Files

Access to our extensive library of downloadable design files is yours, and it includes faucets, showering products and accessories.

Continuing Education

We offer a variety of online and in-person courses to boost your knowledge and help you keep up on your professional credentials. Topics include sustainable water delivery solutions, evolution in showering systems, technology and trends, just to name a few.

Contact us anytime.

Our leading resource is our people. For questions or assistance, or to personally request design files or other details, don't hesitate to ask. Get in touch with a member of our hospitality team anytime.

Hospitality@DeltaFaucet.com

Case Studies

Our case studies are more than real-world examples of how the Delta® brand helps pros meet design challenges. They can also spark ideas for your next project.

Innovation and Inspiration

With over 190 patents to our name, plus 8,636 square feet of studio, product modeling, lab and testing facilities—all dedicated to advancing our designs—innovation remains at the core of what makes the Delta® brand different.

Visit deltafaucet.com/pro to see where our innovations lead. You'll also discover insights, articles and information to inspire you.

A Connected Catalog

We're with you on the go. A free Delta® Catalog app is available for both iOS and Android®, or you've always got mobile access at deltafaucet.com.

Android® is a registered trademark of Google, Inc.

H₂OKINETIC[®] TECHNOLOGY.

The feeling of more water.
Without using more water.

H₂Okinetic technology sculpts water into a unique pattern that delivers more warmth, more intensity, and 3X the coverage*—all while saving water. It's a drenching, spa-like experience guests will talk about and come back for.

*Coverage measured in accordance with EPA WaterSense[®] Specification for Shower Heads, March 4, 2010.

IN2ITION[®] TWO-IN-ONE SHOWER.

Water where they need it most.

Our In2ition Two-in-One Shower offers two streams of water at once, so guests can put water where they need it most—using the integrated shower head and hand shower separately or together. In its primary position, the In2ition shower functions as a regular shower head, while the hand shower offers the flexibility for closer-range tasks.

HYDRORAIN® TWO-IN-ONE SHOWER HEAD.

Featuring
H₂Okinetic Technology.

Now even more luxurious and relaxing with H₂Okinetic Technology, the HydroRain Two-in-One Shower Head allows use of the raincan only, the shower head only or both at the same time. Offer the experience of a spa to guests, bringing with it increased warmth, intensity and coverage.

PROXIMITY® SENSING TECHNOLOGY.

The next generation in hands-free functionality.

Proximity Sensing Technology makes Delta® electronic faucets the most responsive in the industry. The entire faucet body acts as a sensor, activating water flow when guests approach and stopping once their hands are removed. And the lack of an exposed sensor reduces the risk of sensor damage from vandalism or cleaning products.

MULTICHOICE® UNIVERSAL VALVE.

Get maximum flexibility with minimum effort.

Installing the Delta® MultiChoice Universal Valve makes it easier to upgrade style and functionality later, without changing plumbing behind the wall. A high-flow rough for shower-only configurations adds even more flexibility, while a refined temperature limit stop allows more precise settings for greater guest comfort.

DIAMOND SEAL® TECHNOLOGY.

Innovation and reliability in one convenient box.

Delta faucets with DIAMOND Seal Technology perform like new for life with a patented design which reduces leak points, is less hassle to install and lasts twice as long as the industry standard.*

*Industry standard is based on ASME A112.18.1 of 500,000 cycles.

Finishes that contribute to unforgettable stays.

The Delta® brand doesn't stop with offering you a breadth of stylish designs. We also pair them with a wide range of finishes to complement any décor.

Whether you're looking to add distinction to your property with warm tones, sleek surfaces or touches of the unexpected, our palette is expansive. In 2019, look for the addition of an eye-catching Black Stainless in the bath.

Beyond delivering the style you want today, here's an important note about looks that last. Even our specialty finishes are guaranteed to last. Thanks to a patented manufacturing process, they're designed to resist corrosion, tarnishing and discoloration—and remain like-new for years.

Creating a memorable guest experience.

You meet your guests.

We'll meet their needs.

On any given day, many different people cross your threshold. And each one arrives with different preferences. The Delta® brand helps you satisfy your guests, whether they're yearning for a touch of luxury or just looking for a bit of added support.

That satisfaction begins with the striking design of our faucets. Indulgence continues in the shower, where guests may enjoy such innovations as our In2ition® Shower with H2Okinetic® Technology: two integrated shower heads that deliver a drenching experience by sculpting water into a unique wave pattern.

For those seeking support beyond the standard, our decorative ADA grab bars and universal design options offer security that doesn't sacrifice style, and make all visitors—regardless of age and ability—feel truly welcome.

Turning public spaces into personal experiences.

Whether they're checking into your hotel for the first time or simply attending an event at your facility, guests will eventually end up in your public restroom. And when they do, we'll make sure their experience is a pleasant one.

The faucets, flush valves and accessories we create for public spaces are available in attractive designs that complement any décor. And those styles are enhanced by our various technical innovations, such as Proximity® Sensing Technology—which creates the industry's most responsive electronic faucets. When a guest's hand approaches the faucet spout, the entire faucet body acts as a sensor, activating the flow of water automatically. When hands are removed, the water stops—saving you money, and leaving guests with a lasting positive impression.
