

1. SURFACE FINISH PER MPTA B4

Technical drawing of a 1/2 inch diameter, 1.56 inch long, 34 degree conical probe. The drawing shows a cross-section of the probe with various dimensions and tolerances. The probe has a conical tip with a 34 degree angle. The main body is cylindrical with a diameter of 1.56 inches and a length of 1.06 inches. The base has a diameter of 2.950 inches. The probe is shown with a 1/2 inch diameter hole through the center. The drawing includes dimensions for the probe's length, diameter, and hole size, as well as a note indicating the probe is made of 5/16-18UNC SETSCREW.

This drawing is a stock power transmission component. Details shown which do not affect drive function may be changed without any notification.
