Pitch Circumference Belt Pitch DesignViewTM Belt Information Sheet DesignViewTM Belt Information Sheet Created 23 Jun 2017 by Gates Created for Poly Chain GT Carbon - 8MGT

The length shall be measured by placing the belts on two pulleys of equal diameters that have been grooved in accordance with standard specifications and rotated at least three complete turns with the specified tension so that each strand receives half the total tension. The length will be that length obtained by adding the Pitch Circumference of one pulley to twice the center distance (dimension 'Y').
