

1. Gates groove profile number: GA-01180-40-S-0
2. Mark Size: .100
3. Install set screws: 8-32

A technical drawing of a circular object, possibly a cross-section of a pipe or a similar mechanical part. It features several concentric circles. The outermost circle is the largest. Inside it is a smaller circle, followed by a ring with a scalloped or wavy outer edge. Further in is another circle, and then a small central circle. A dashed crosshair is drawn across the center of the circles, with the horizontal line being slightly longer than the vertical line.
