Hayward[®] Commercial Pool Product Catalog

Best in Class, Unrivaled Performance.

Hayward® Commercial Pool welcomes you to our new 2013 catalog.

2013 is another exciting year for Hayward[®] Commercial Pool products. Introduction of the new Universal CrystaLogic[™] White LED Light range further demonstrates our ability to incorporate new technology to deliver high-performance energy-efficient products. Our all new second generation of Commercial Sand Filters takes performance, reliability and user friendliness of this established technology to the next level. Other key products in our line have been extended and refreshed with new exciting features. Our Commercial team has also grown as have our tools and systems to better serve our builders, channel partners, pool designers and architects. With the superior technology and backing of the same great team of Operations, Engineering

and Customer Service, Hayward is prepared to continue leading at the forefront of the Commercial Pool industry. We hope to continue connecting with all of our customers through our "Pool Pro" social media platforms as well as through our Totally Hayward® Program so you can stay up-to-date on the latest from Hayward and have some fun while building up your business. The Totally Hayward Program allows you to get rewarded on all partner purchases. Rewards include trips, sporting equipment, electronics, clothes, and even cash. See www.HaywardRewards.net for more details.

Whether you're a long-time partner of ours or just started thinking about working with us, we are eager to show you what Hayward Commercial Pool has in store for 2013. Give us a call at 1.800.657.2287 or visit us at www.haywardcommercialpool.com for more information.

New for 2013!

- Next Generation, High-Performance HCF Series Sand Filters
- Universal CrystaLogic White LED Lights
- CAT Controllers[®] Chemical Automation technology now certified to NSF/ANSI Standard 50, refreshed aesthetic controller design and added communication options, Wi-Fi[®] and Cellular

Commercial Pumps

Hayward[®] Commercial offers a complete line of technologically advanced self-priming commercial pumps ranging from the industry's most efficient swimming pool pump, the variable speed EcoStar[®]C to the large horsepower HCP Series pumps in sizes 5.5 through 12.5hp.

HCP Series Pumps

Hayward[®] Commercial HCP self-priming pumps provide a technologically advanced alternative to traditional bronze or cast iron pumps. Their lightweight, Noryl^{®1} thermoplastic housings make one-man installation easy. The all-plastic housing construction and modern TEFC motor design afford a high level of protection and reliability in the commercial pump room environment. A transparent cover lid with tool-free opening mechanism allows visual inspection of the strainer basket, simplifying maintenance. Four pumps in the Hayward Commercial Series, ranging from 5.5 to 12.5 hp, allow right-sizing for most high-flow, medium head applications.

- Suitable for commercial swimming pools, spas and water features
- Lightweight, glass-reinforced Noryl hydraulic body
- Impeller and flange made from glass-reinforced Noryl for maximum strength-to-weight ratio
 NSF listed

EcoStar[®] C

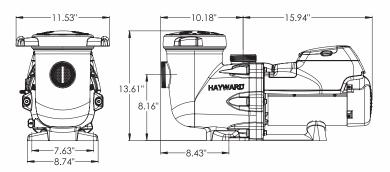

EcoStar C is the industry's most energy-efficient variable speed pump. Fully compliant with energy efficiency regulations such as Title 20 and APSP-15 with up to eight custom speed and timer functions, the settings can be "locked out" for authorized access only. EcoStar C's advanced hydraulic design moves water more efficiently, operating at lower RPMs to minimize noise and save pool operators up to 90% on energy costs. The system is available with or without integrated SVRS that is fully compliant with the Virginia Graeme Baker Pool & Spa Safety Act. It features a fully functional control that can be mounted in four different positions on the pump or on a wall by using the included mounting kit (bracket and cable). The system even comes with interchangeable bases to allow easy retrofitting into existing pipework.

- Permanent Magnet, Totally Enclosed Fan Cooled (TEFC) motor
- Passcode protection of configuration menus to prevent unauthorized access to timer or speed settings
- Unique on-pump, multi-position digital control interface; unit can also be detached and wall mounted for added convenience
- Large ribless basket for extended time between cleanings
- Pump available with or without VGB-compliant integrated SVRS, features automatic restart
- 2" x 2 1/2" union connections
- Industry-leading hydraulic design
- NSF listed

Commercial Filters/Accessories

Hayward[®] Commercial offers the latest in filtration technology with the HCF Series of highperformance sand and cartridge filters. This year we introduce our next generation, heavy-duty fiberglass sand filters – now with additional sizes and innovative new features. We have also enhanced the hydraulic efficiency of the dual-quad cluster HCF7030C cartridge system. The all-new HCF line is well positioned to meet the most demanding commercial filtration requirements.

HCF Series Sand Filter

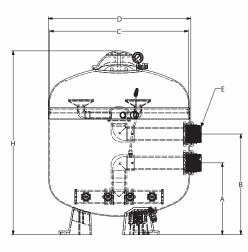

The next generation HCF Series Sand Filters resets the bar for quality and performance in the recreational water market. This new line of filters builds on its existing fully-engineered design by incorporating many exciting new features. The new rapid open/close tool-free lid mechanism features an industrial-grade yoke assembly and a massive 12" x 16" manway with two viewing windows to allow for visual inspection while filter is in operation. Along with non-corrosive glass filled ABS legs, these new features afford users and service personnel an unprecedented level of convenience in media loading and filter inspection. The infusion molded, gel-coated thermoset fiberglass structure is complemented with oversized, grid-array laterals to improve filtration and lengthen filter cycle time. The range has expanded to address the requirements of the renovation/replacement market with the introduction of new 34" models capable of fitting through standard 36" doors.

- Tool-free, injection molded, internally mounted 14" x 18" industrial-grade lid and yoke assembly with two viewing windows and 0-ring seal
- Commercial-grade, 1½", self-cleaning injection molded, 180° slotted laterals arranged in a grid-array provide superior filtration performance
- Industrial-grade, infusion molded, gel-coated, multi-layer, glass-reinforced, thermoset composite structure
- Self-leveling, injection molded support legs, permanently bonded to the tank, suitable for Zone 4 earthquake conditions
- Large 12" x 16" top opening for easy media loading and filter inspection
- Full 1" bottom media drain including 3/4" integral water drain with media screen
- NSF listed

Lid yoke closure - tool-free seal

Internally mounted 12" x 16" lid with clear viewing windows and O-ring positive seal

Dual (HCF302T) or triple head [(HCF342T, HCF343T, HCF343F, HCF362T) and quadruple (HCF363T, HCF363F)] diffusers for optimized distribution

Industrial-grade Hayward flow control bulkhead fittings - 30" model standard with 2" pipe connections - 34" model standard with 2" or 3" pipe connections - 36" model standard with 2" or 3" pipe connections

- _ 3" flange connections standard on the HCF343F and HCF363F

Horizontal lateral grid-array yields longer cycle time, improved filtration and more efficient backwashing

Support legs

- Provides easy access to drain
- Self-leveling design
- _ Seismic rated

COMMERCIAL POOL PRODUCTS

Commercial Filter Accessories

Hayward® Commercial's HCF Series Sand Filters can be installed individually or configured in multi-filter banks to suit the filtration requirements of any swimming pool or spa. Hayward Multiport Valves simplify installation and operation and are engineered for maximum flow and minimal pressure drop.

2" Multiport Valve Kit

Hayward's 2" Multiport Valve Kit is factory plumbed for use with Hayward HCF302T and HCF342T commercial sand filters, complete with 2" union connections. The six-position valve facilitates selection of filter, backwash, waste, rinse, closed or recirculate modes at the turn of a single lever. The integral sight-glass allows the operator to visually monitor the backwash stream.

- Factory plumbed to fit Hayward HCF302T and HCF342T commercial sand filters
- Simplifies filter installation and operation
- · Six mode selections at the turn of a single lever
- 2" union connectors included
- · Accommodates flow rates to 125 GPM

3" Multiport Valve

Rated for a maximum flow of 330 GPM, the Hayward 3" Multiport Valve is the perfect complement to the Hayward HCF343T and HCF363T commercial sand filter. For optimum flexibility in the commercial setting, the valve features 3" NPT ports for in-filled configuration and plumbing. The six-position valve facilitates selection of filter, backwash, waste, rinse, closed or recirculate modes at the turn of a single lever.

- Valve body features both side-mount and bottom-mount ports for filter connections
- Durable ABS construction
- Accommodates flow rates to 330 GPM
- Six mode selections at the turn of a single lever

HCF Series Cartridge Filters

The NSF listed, Dual Quad-Cluster commercial HCF7030C cartridge filter system features a massive 700 ft² of filter area providing heavy-duty, dirt-holding capacity and extra-long filter cycles.

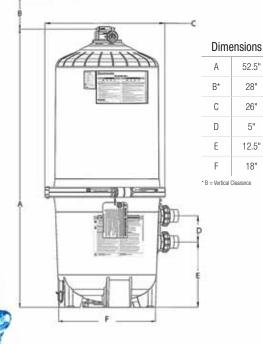

The HCF7030C will prove to be a major contributor to any Pool or Spa operator driving to provide the ultimate in clear, fresh, and safe water. It will reduce operation costs and enhance the eco-friendliness of the facility by saving thousands of gallons of carefully-balanced, heated pool water per month through the elimination of backwashing.

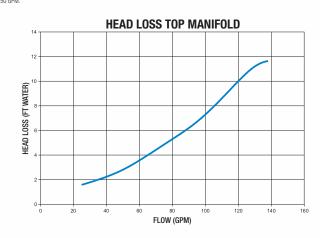

Ideal for new construction or retrofit, the HCF7030C is able to accommodate commercial flow rates to 150 GPM. The filter exterior is molded from a glass-reinforced copolymer material, capable of meeting the rigorous demands of the commercial environment.

- 700 ft² of high-performance filter media, effective particulate removal of 10-20 microns vs. 20-40 microns with sand
- Easy access to eight compact cartridges for fast, manageable cleaning
- 2" or 2½" connections with full 2" internal piping
- NSF listed

Model	HCF7030C
Product Dimensions	52.5" Tall, 26" Diameter
Effective Filtration Area	700 ft ²
Design Flow Rate	150** GPM
Filter Type	Dual Quad-Cluster Polyester Cartridge
Filter Tank	Injection Molded Glass-Reinforced Co-Polymer
Filter Elements	Eight Reinforced Polyester Cartridges
Performance Range	$1\!\!\!/_{2}$ to 3 HP (30 to 150 GPM) .37 to 2.24 kW (114 to 568 LPM)
Maximum Working Pressure	50 PSI
Turnover (in gallons) 8 hrs	72,000
Turnover (in gallons) 10 hrs	90,000
Product Weight	77 lbs.

** Determined by pump size and piping system hydraulics, 2^{1/2} piping is recommended for flow rates equal to or greater than 90 GPM (341 LPM). Hayward® doesn't recommend flow rates above 150 GPM.

Commercial Heaters

Building on our existing industry-leading line of gas heaters, Hayward[®] offers unmatched performance and superior engineering with the Universal H-Series ASME commercial gas heaters. All commercial heaters employ a forced draft design and provide exceptional hydraulic performance. This universal, innovative and energy-efficient product sets the bar for all gas heaters in the industry.

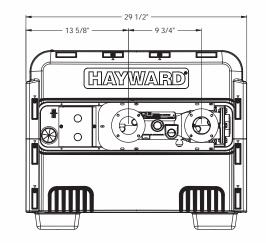

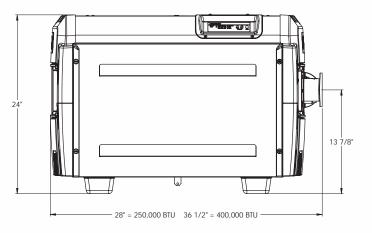

Universal H-Series ASME Gas Heater

Hayward[®] Commercial Universal H-Series ASME gas heaters are designed and certified for commercial use. The flagship of our H-Series line encompasses high-end features and construction materials as **standard**. They combine industry-leading hydraulics, exceptional performance, energy efficiency and reliability, with planet-friendly low NOx emissions. Flexible connection options make them ideal for new or existing applications.

- Choose from just 4 models (250,000 and 400,000 BTU natural gas or propane)
- Patented Cupro Nickel Finn Plate[™] heat exchanger with Bronze Header as standard
- Independent left or right side electric, water and gas connections
- 2" x 21/2" CPVC flanged connections
- ASME pressure relief valve included as standard
- Electronic lock-out feature prevents
 unauthorized access to configuration settings
- Easy installation and service via access of single front panel
- Easy gas valve adjustment
- Easy dual voltage conversion with fuse-protected circuit boards

Part Number	BTU	Description	Pipe Size	Max Allowed Working Pressure	Dimensions (L x W x H)	Carton Qty	Carton Weight (lbs.)

H400FDPASME	400,000	Propane	2" x 2½"	125 PSI	36½" x 29½" x 24"	1	225

Electronic Temperature Lock-Out

- Prevents unauthorized access to temperature settings
- Energy-saving temperature management
- Optional mechanical control bezel lock-out cover available

Low Profile 24" Height Cabinet

- Lowest industry height for an unobtrusive equipment pad
- Can be raised off floor, closer to ceiling for small equipment rooms/pads

"Forced Draft" Combustion

- Impervious to wind and weather
- Reliable low NOx environmentallyresponsible heating
- Certified for high altitude applications up to 10,000 ft. standard
- Unique Silicon Nitride hot surface ignitor for dependable lighting and reliable operation

Non-Corrosive Feet

 No rust/corrosion on wet floors/pads

Patented Cupro Nickel Finn Plate[™] Heat Exchanger as Standard

- Totally managed flow design provides high hydraulic efficiency
- High flow and chemical resistance suitable for saltwater applications
- Faster heating and longer life

Low Lead Bronze Header as Standard with Patented Header Bypass Design

- Industry-leading hydraulic performance
- Up to 18% energy savings via reduced circulation pump time
- No rust in the pool/spa

"Universal" Design for Left or Right Side Plumbing, Gas and Electrical

- Ultimate installation flexibility
- Easily retrofits to preexisting or new pad configurations
- Certified for installation on combustible surfaces
- Easy to install and service

Suitable for Indoor Installations

- Venting kits available

Commercial Lighting

Hayward[®] Commercial Pool gives you brilliant, versatile lighting options for both new construction and remodeling to create and transform any body of water. First to be UL listed to retrofit virtually all existing manufacturer's niches, both Universal CrystaLogic[™] White LED and Universal ColorLogic[®] Color LED Lighting represent industry-leading breakthrough technology, cutting operation costs while delivering game-changing performance.

Universal CrystaLogic[™] White LED

Universal CrystaLogic[™] White LED Lighting represents a breakthrough technology for the illumination of any water feature or recreational body of water. The optimized LED and optic design delivers both extraordinary lumen per watt energy efficiency and associated long lifetime cost. Our 300W pool equivalent delivers the same lumens as the leading competitor's claimed 500W equivalent and offers savings of 79% vs. incandescent equivalents.

CrystaLogic presents a compelling opportunity for any owner/operator to drastically cut operational cost while delivering gamechanging performance. CrystaLogic is available to virtually anyone; its all-plastic construction is truly universal. It's UL listed to retrofit virtually any installed niches, allowing most lights to be upgraded. These 12V, 2-wire, all-plastic lights can be installed as close as 4 inches from the waterline, and even upward facing without a rock guard, opening a wide range of new applications.

ā

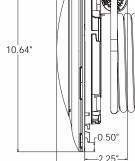

- Brightest 100W spa, 300W pool equivalent LED lights
- Uses up to 79% less energy than incandescent lights and lasts up to 10 times longer
- Energy and maintenance savings can deliver a payback in less than two years
- UL listed to retrofit into most manufacturers' installed inches makes CrystaLogic truly universal
- 12V, 2-wire, all-plastic construction with an unbreakable lens make these lights intrinsically safe and easy to install

-1 48"

3 73"

Can be installed as close as 4" from the waterline and upward facing without a rock guard, suitable for main pool/spa illumination, beach entries, steps, shelves, water features, etc.

- UCL Thin Niche provides incredible installation savings for new construction
- Multiple color trim rings available to match surface finish. Ships with white and silver luster starburst trim rings

Universal CrystaLogic White LED Lights

Part Number	Equivalent Brightness	Pool or Spa	Cord Length (ft)

LSLUS11050	100W	Spa	50'
LSLUS11100	100W	Spa	100'
LPLUS11030	300W	Pool	30'
LPLUS11050	300W	Pool	50'
LPLUS11100	300W	Pool	100'

Universal ColorLogic®

Our new Hayward[®] Universal ColorLogic is not only 100% brighter* than any other color LED lighting, it's the only LED lighting UL listed to retrofit virtually any existing installed light niches. No pool owner/operator has ever had this much control over color, luminescence, movement, and mood. Universal ColorLogic has an optimized optic design that directs light through the entire body of water. It comes standard with 10 vibrant colors and 7 programmed light shows to choose from (101 colors with brightness, speed, and motion when network versions are used with ProLogic[®] controls). Install it as close as 4 inches from the waterline or upward facing without a rock guard.

Universal ColorLogic lighting is 50% brighter than the leading non-LED color light. But its real beauty is in the savings. Pool owners/operators can upgrade from incandescent lights and save as much as 86% on energy costs. And they keep saving. These LED lights last 10 times longer, virtually eliminating service calls for burned-out bulbs. There are no bulbs, filaments, color wheels or moving parts.

*At time of print

Commercial Automation

Thousands of commercial pools, spas, water parks and water treatment facilities worldwide rely on CAT Controllers[®], now certified to NSF/ANSI Standard 50, to provide enhanced water quality management and reduced operational costs. Every model provides unmatched control over pH and sanitization for chlorine, bromine, or salt-based pools. New for 2013, the aesthetic design of all CAT Controllers has been refreshed. Our wireless, web-based models are now available with Wi-Fi^{®2} and Cellular connectivity to allow unparalleled remote monitoring and control through www.poolcomm.com. Also, our HCC 1000 and HCC 2000 Complete Package

Controllers provide you the ultimate one-stop-shop experience for user convenience.

CAT 1000[®] Automated pH Controller

Most cases of red eyes and itchy skin after pool use are actually caused by poor pH maintenance. With the CAT 1000, pH levels in your pool are continuously monitored and adjusted automatically. Chlorine is also the most effective in keeping water safe when pH is optimally maintained. Maintaining proper pH protects the costly pool surface and equipment, extending service life while reducing repairs and warranty issues.

- The perfect enhancement for salt-chlorine systems
- Protect your investment

- Spend more time enjoying your pool instead of making routine pH adjustments
- NSF/ANSI Standard 50 listed

CAT 2000[®] Automated Water Chemistry Controller

Chemical automation is recognized by health officials and industry leaders as the safest, most effective method of maintaining precise, healthy water balance. The CAT 2000 constantly monitors pH and sanitizer activity (chlorine, bromine, even salt systems) and automatically implements chemical feeding in proportion to demand for picture-perfect water quality at all times.

- Simple installation, setup, and operation
- Compatible with all types of chemical feed equipment
- Factory assembled system includes: controller, sensors, machined acrylic flow cell, rotary flow sensor and PVC backboard
- Long-life, low-maintenance 2-year warranty sensors
 NSF/ANSI Standard 50 listed

Part Number	Description	Carton Quantity	Carton Weight (Ibs.)
CAT-2000	CAT 2000 Controller and Sensors	1	6.0
CAT-PP2000	CAT 2000 Professional Package	1	20.0

CAT 4000[®] Commercial Remote Water Quality Controller

Using the CAT 4000 system you can easily log onto PoolComm.com to activate your wireless account and begin monitoring your water quality. Using your personal PoolComm[®] account, you can view water quality data, print charts, analyze graphs, customize your settings, and receive alarm notifications via email or SMS.

- Wireless link to the PoolComm site with extensive North American coverage and 24/7 monitoring
- Incredibly simple to install and operate via simple menus and a bright alphanumeric display
- Compatible with existing chemical feed
 equipment, so initial investment is minimized
- Comes complete with CAT Professional Series pH and ORP sensors for unsurpassed performance
- Optional Wi-Fi[®] communications protocol provides users free PoolComm access
- NSF/ANSI Standard 50 listed

CAT 5000[®] Wireless, Internet-Based Water Quality Management and Monitoring

Introducing the CAT 5000, the world's first wireless, internet-based water quality controller employing both satellite and terrestrial communications to provide worldwide coverage. Now you can take advantage of affordable wireless technology and internet-based monitoring to put you in control like never before.

The CAT 5000 offers unprecedented product quality, value, and ease of use. Simply install the factory-assembled CAT 5000 system and log onto PoolComm.com to activate your wireless account and begin monitoring. Using your personal PoolComm[®] account you can view water quality data, print charts, analyze graphs, customize your settings, and receive alarm notifications via email or SMS.

The Complete Water Quality Solution

- State-of-the-art microprocessor-based water quality controller with integrated wireless communications
- Eliminates the cost of installing and maintaining dedicated analog telephone lines
- With 4 different wireless communication protocols ranging from Wi-Fi^ to Satellite, the CAT 5000 will communicate wirelessly, 24/7 from anywhere in the world

•	Monitor & maintain via web browser from any internet-enabled
	computer, iPhone®3, Blackberry®4, Droid®5 or mobile device

HCC 1000 Automated pH Controller

Water chemistry automation prevents thousands of cases of recreational water illness every year. The HCC 1000 and HCC 1000 Complete Package are single channel pH water chemistry automation systems. The HCC 1000 features a pH sensor, water chemistry controller, flow cell, and pressure sensor, all factory-assembled and

pre-mounted on a durable PVC backboard. The Complete Package additionally includes a chemical feed pump mounted on the PVC backboard for ultimate convenience.

The HCC 1000 ensures pH is precisely maintained at the desired level to optimize chlorine effectiveness. Maintaining proper pH protects costly pool surfaces and equipment, extending equipment life and reducing warranty issues. The HCC 1000 Series provides powerful technology in a simple, affordable package.

- Perfect for new and existing applications, especially saltwater pools
- Automation eliminates time and risks of making manual pH measurements and adjustments
- Proper pH maintenance enhances chlorine effectiveness, bather comfort and safety
- Factory engineered, pre-configured to ensure simple professional installation
- NSF/ANSI Standard 50 listed (HCC 1000 only)

Part Number	Description	Carton Quantity	Carton Weight (Ibs.)
HCC1000-pH	HCC 1000 pH Controller	1	10.0
HCC1000-C02	HCC 1000 pH Controller with CO ₂ Feeder	1	15.0
HCC1000-ORP	HCC 1000 ORP Controller	1	10.0
HCC1000-pH-CP	HCC 1000 pH Complete Package with Pre-mounted Chemical Feed Pump	1	15.0

HCC 2000 Automated Water Chemistry Controller

Perfect for swimming pools, spas, and water features, the HCC 2000 is a powerful yet affordable microprocessor-based pH and ORP water chemistry controller. The controller features proportional feed to ensure precise water chemistry maintenance, and operates using the Oxidation-Reduction Potential (ORP) method of water analysis to ensure rapid deactivation of such waterborne pathogens as E. coli in swimming pool water.

The HCC 2000 Complete Package provides the ultimate one-stop-shop experience: one unit pre-configured with

everything required to make water chemistry management simple, convenient, and affordable. This package includes the HCC 2000 controller, flow cell, and flow sensor, all now pre-mounted on a PVC backboard with peristaltic feed pumps for pH and chlorine adjustment.

- Advanced microprocessor-based design technology
- Comes with chemical feed equipment compatible with all existing chemical feed systems; chlorine, bromine, electronic chlorine (salt) generators, acid and CO₂
- Simple to operate user interface with easy-to-read LED display
- Complete package offers a total chemical automation system for easy installation and ultimate convenience
- NSF/ANSI Standard 50 listed (HCC 2000 only)

Part Number	Description	Carton Quantity	Carton Weight (Ibs.)

Commercial Automation

PoolComm[®] Wireless Web-based Management

ä

PoolComm is a revolutionary way to manage multiple commercial pools and spas, from any remote location. This web interface allows detailed monitoring, pH and ORP adjustment, compliance documentation, and more through the internet. Any computer, iPhone[®], Blackberry[®], Droid[®] or other web-enabled device can manage a pool.

- New Wi-Fi[®] communications option allows free access to PoolComm anytime
- Get direct control of systems from any web browser
- Monitor and display multiple facilities simultaneously
- Receive near real-time detection of pH and ORP problems
- Get color-coded alarm display, with notification by email or SMS
- Promote customer satisfaction by solving problems proactively

Commercial Cleaners

Hayward[®] Commercial offers a complete line of commercial cleaners. They're built strong, designed to last, and backed by a nationwide network of factory-authorized service centers.

TigerShark[®] 2 / TigerShark 2 Plus with Remote

The most advanced, automatic, portable pool cleaners in the industry.

MakoShark[™] 2

The fastest cleaning time, fully automatic and self contained.

KingShark™

Cleans small commercial pools in less than four hours.

KingShark[™] 2 / KingShark[™] 2 Plus with Remote Cleans Olympic-sized pools in less than five hours.

NOTE: Flanged connections are available. Please call for part number and pricing information.

NOTE: All Hayward® Flow Control products have a two-year warranty as standard.

NOTE: All Hayward Flow Control items are based on a per unit cost with the exception of all QVC Series Ball Valves, which are sold as bag quantities ONLY. If bag quantities are broken, there will be a 25% upcharge.

All Flow Control products manufactured are in compliance with ISO 9001:2008 standards.

0.00

White Goods

Complementing our extensive Residential line of white goods, Hayward[®] offers a wide variety of white goods products that provide premium features and years of long-lasting performance. Our Skim-Master[®] and Auto-Skim series skimmers offer multiple configurations for plumbing and have an extra large capacity for debris removal.

Skim-Master®

The Skim-Master[®] series skimmers feature large capacity surface skimming with a round, tamper-proof access cover, self-adjusting 8" weir with a stainless steel spring, dual outlet ports, and threaded internal connections for pressure testing capability. The optional float/bypass valve provides a suction outlet through the skimmer or an automatic skimmer bypass for low water conditions. No glue is used in manufacturing and there are no body joints below water level, enhancing the overall strength and longevity of the product. Both the SP1070 and SP1071 model skimmers provide a ¾" knockout port that can be used for pool overflow management or as water fill line.

- · Adjustable deck collar and access cover
- Multiple plumbing configurations to accommodate various applications
 - nodate Available in $1\frac{1}{2}$ " and 2" FIP, round models only

Automatic bypass for low water conditions

Large capacity debris collection basket

Auto-Skim

The Auto-Skim series skimmers are designed for demanding commercial and residential applications providing precision, large capacity, and automatic surface skimming. They are molded from non-corrosive, non-conductive ABS material.

- Cover collar allowing 1½" vertical adjustment
- Snap-in weir that adjusts automatically to 4½" variation in water level
- Optional float/bypass valve
- Stackable notched extension collar allows infinite vertical adjustment
- Accessories are available, including a float valve and equalizer kit for SP1080 series skimmer
- NSF listed (approved when used with commercial cover and equalizer)
- Available in 1½" and 2" FIP, in round or square models

NSF

Safety Products/Sanitization

Hayward provides suction outlets with some of the industry's highest approved flow rates for use in new commercial pool/spa construction or retrofit into existing Hayward frames. All of our suction outlets are VGB compliant and tested to ANSI/APSP-16 standards in addition to meeting CPSC requirements.

Furthermore, Hayward provides the #1 selling alternative solution to adding pool chemicals – salt chlorinators. By using Hayward salt chlorination systems, the swimming experience at aquatic facilities can be dramatically enhanced. Swimmers can now be at ease with the reduction in red eyes, itchy skin and chemical odors.

VGB Act-Compliant High-Flow and Low-Velocity Drain Covers

High-Flow and Low-Velocity suction outlets provide multiple options for accommodating various design flow rates as well as ANSI/APSP-16 standards. Models are available in 9" x 9", 12" x 12", and 18" x 18" to satisfy installation requirements for commercial pools and spas. Each suction outlet cover includes a certificate of compliance and is embossed with the VGB logo.

AquaRite[®] Electronic Chlorine Generators

AquaRite electronic chlorine generators (also known as salt chlorinators) are the world's largest-selling alternative solution to adding pool chemicals. Alone, or multiplexed together, they automatically produce pure chlorine using just salt.

- · Chlorine produced in low concentration (below taste level)
- · Produced while the pool is being filtered, distributed evenly through jets
- Each TurboCell[®] produces up to 1.45 lbs of chlorine daily
- NSF listed and approved for commercial and public pools
- Install on standard filtration systems
