

# FlexTube

REPLACEMENT INSTALLATION KITS

## Designed for Food Service Equipment

**F**lexTube Replacement Installation Kits have been specifically designed to replace damaged internal supply lines on commercial cooking equipment. These kits are to be used as replacement components for rigid aluminum tubing. FlexTube corrugated stainless steel tubing will minimize the time spent to replace these fuel lines.

- Replaces Aluminum Tubing
- Shortens Time Spent on Job Site
- Reduces Assembly Steps (no flaring)
- Increases Technician Productivity
