NEW PRODUCT SHOWCASE

NEW Line of Brass and Nickel Cover Plates for Round Floor Boxes

Kraloy is pleased to announce the launch of a new line of brass and nickel plated covers for round floor boxes. The cover plates help to protect enclosed power data and communications wiring from daily environmental floor conditions such as mopping (UL scrub water tested) and foot traffic (UL approved for cover loading).

The covers feature a light lacquer finish for extra strength and durability in high traffic areas and include a rubber gasket and aluminum backing plate to create a water-tight seal. The flush mount cover plates should be installed to the floor box using the LRA-U.

Easy to use, brass and nickel cover plates are available in a variety of styles.

Styles Available

Duplex Receptacle
Cover with Dual Flip Lid

Duplex Receptacle Cover with
Individual Screw Plug Openings

Combination 2" x 1/2"
Single Screw Plug Opening
