

## HOLDRITE® #117 Series No-Hub Fitting Restraint Solutions

### 117 SERIES PRODUCT LINE EXPANDS

Numerous Configurations Now Available  
Galvanized Solutions up to 15"

- Ideal for restraining Hubless Cast Iron Soil Pipe joints against separation during high thrust conditions
- Hubless Cast Iron Soil Pipe Restraint Kits for pipe sizes 2" through 8" consist of galvanized steel straps with high strength, high torque stainless steel band clamps.
- For pipe sizes 10" through 15" kits consist of heavy-duty pipe clamps (available in both black iron and galvanized), heavy gauge galvanized steel straps and T-bolts with matching hardware.
- Meets installation guidelines as specified in CISPI Installation Handbook.
- List price sheet available on [holdrite.com](http://holdrite.com)

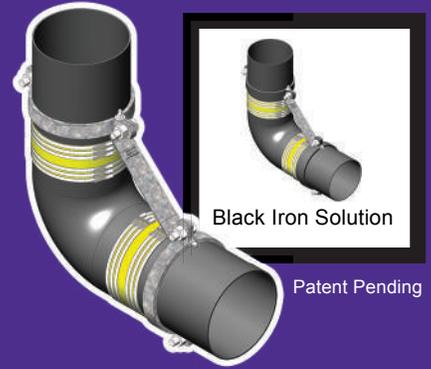

## BIM

**Building Information Modeling**  
(BIM) files available in Autodesk® Revit.

HOLDRITE #117 Series No-hub Fitting Restraint Solutions assist compliance with no-hub cast iron joint bracing as required by no-hub cast iron manufacturers, CISPI and other codes and standards. Use does not affect other manufacturers' ratings or limitations on their pipe or system components, nor increase allowable pipe, fitting or coupling system pressures. Install per manufacturer instructions.
