

19-806

19-806 Voltage Tester

T&B model 19-806 features include:

- Dual voltage indication: Solenoid vibration sensing and electronic neon visual indication.
- Positive AC/DC voltage identification: 120, 240, 480, 600 VAC 60/50 Hz; 120, 240, 600 VDC.
- Positive or negative DC pole identified by neon lamp.
- Replaceable leads.
- Retractable and locking, spring loaded shrouds protecting metal probes.
- Durable metal probes capable of piercing insulation covered conductors.
- Self-extinguishing, high impact sealed case and prod assemblies preventing dirt, dust and small objects from entering the tester.
- Case serves as prod holder for one-handed operator.

Model 19-806

Cat. No.	Description	Std. Ctn.
19-806	Voltage Tester-Solenoid Type	10

19-660C

19-660C Audible Voltage Continuity Tester

T&B model 19-660C is designed for the everyday needs of the professional electrician and are made in USA. This solenoid-type tester model features include:

- ***Three voltage indications: Solenoid vibration sensing, electronic neon visual indication, and audible buzzer.***
- ***Positive AC/DC voltage identification: 6 to 600 volts 60/50 Hz.***
- ***Automatic testing for continuity through 300K ohms.***
- ***Electronic buzzer indication for AC/DC voltage and continuity.***
- ***Positive or negative DC pole identifies by neon lamp.***
- ***Replaceable leads.***
- Retractable and locking, spring loaded shrouds protecting metal probes.
- Durable metal probes capable of piercing insulation covered conductors.
- Self-extinguishing, high impact sealed case and prod assemblies preventing dirt, dust and small objects from entering the tester.
- Includes A76 batteries.
- Case serves as prod holder for one-handed operator.

Model 19-660C

Cat. No.	Description	Std. Ctn.
19-660C	Audible Voltage/Continuity Tester-Solenoid Type	10
